Champaign County Board Community Violence Prevention Proposal

Organizational Mission

DREAAM (Driven to Reach Excellence and Academic Achievement for Males) is a community impact organization with a social justice mission to reduce the achievement and opportunity gaps among boys and young men ages 3 to 24. To achieve this mission, DREAAM builds a seamless pipeline of hope to disrupt the "school to prison" pipeline and increase life opportunities. During COVID-19, DREAAM expanded to serve girls, young women, and families, and provided in-person services to improve remote learning outcomes, social emotional health, and parental involvement. This expansion has strengthened and re-purposed our mission to prioritize the whole family's health, well-being, and achievement.

Project Description

Hope for the Future (H4F) is an evidence-informed, social justice initiative to develop a path of proactive violence prevention. The vision is to prevent violence over time and build hope for a lifetime. This initiative will address inequalities, child well-being, and mental health among Black and Brown children and their parents living in three small urban cities in Illinois which are Champaign, Urbana, and Rantoul. Building on existing partnerships and impactful programming, DREAAM will implement, scale, and sustain H4F programs and services that are trauma-informed, community-based, culturally responsive, and people-centered. Specifically, H4F will implement early childhood cultural education and expand girls' programming, preventative services, health programming, and personal development opportunities to continue supporting children and families during the COVID-19 pandemic.

Champaign Community Board funding will equip DREAAM to implement, scale, and sustain effective programs and services that will provide and elevate children's mental health and wellness services, culturally relevant supports, and family-centered programs. These services will reach, teach, and heal Black and Brown children and youth—ages 3 to 24—and their parents in Champaign County. In addition, a portion of the funding will be designated to continue to expand programs and services specifically for girls ages 3 to 17. This funding will allow DREAAM to "think outside the box" to address violence and replace it with hope, healing, and health. Specifically, the requested funding will be used for the following:

1. To build a racially diverse team of program and support staff and highly qualified mental health professionals, including hiring licensed clinical social workers, wraparound facilitators, behavioral interventionists, and violence prevention counselors.
2. To design and operate a state-of-the-art early childhood center focusing on Black cultural education, wraparound services and early intervention, family mental health services, and culturally relevant parental engagement.
3. To expand and sustain wellness and gender-specific programming across the three target cities that will offer enriching, well-rounded opportunities, such as exposure to the arts, trauma healing, health education, and college and career exposure experiences.

Scope and Approach

Hope for the Future will initially implement a three-strategy approach that concentrates on outcomes of early intervention, violence prevention, health and wellness, and overall holistic development of children and adults in Champaign County. To achieve these outcomes, programs and services will be research-based, accessible, trauma-informed, culturally responsive, and people-centered.

Specifically, H4F will develop a program team who represent and reflect the racial and cultural identity of the target population; program and support staff, volunteers, and partners will form strong relationships and have culturally informed tools; data will drive the implementation, and structural scope of the proposed work; and last, but not least, H4F will embrace respect and love throughout all programming. A "village-building" approach of new and existing partnerships will be used to actualize the outcomes of H4F. It will take a connected, mighty village of partners and people to mentor, volunteer, provide services, evaluate, and, most importantly, change lives.

The proposed scope of work is to develop and implement evidence-based impact strategies and practices across three small, urban, high-hope cities with the vision of impacting over 1,000 people. The impact strategies are:

Strategy One (1) – Wellness for ALL. This strategy will have specific programming targeting well-being, health, and development and providing free, community-based artistic, physical, and mental health, culturally enriching programming, and self-care practices. Broader services will be offered for parent learning and family resiliency.

Proposed Work:

- Extensive training, skill building, and development of community members, practitioners, and clinicians in trauma healing, effective parenting, restorative justice, and gun violence therapy

- Design and re-purpose the former Greyhound space in the Illinois Terminal as a trauma-informed, centralized community resource space for referrals, and linkage, employment services, and other efforts to foster hope
- Expand Wellness for ALL and DREAAM girls programming to Urbana and Rantoul

Strategy Two (2) – Hope for Boys. H4F will expand programming to reach, teach, and empower boys involved in and/or at risk of being involved in gangs and the juvenile justice system. Expanded programming will include restorative justice, peer leadership training, mental health services, and exposure opportunities to careers and college. To support the health and development of girls, male participants in this program will also receive education about fostering positive perceptions of girls and women, developing allyship with them, and reducing negative behaviors, including violence against them.

Proposed work:

- Develop curricula and innovation to prevent and reduce violence across Champaign County
- Develop and pilot a mentoring and life coaching program to address the mentoring gap

Strategy Three (3) – Black Family Health. H4F will develop a new program dedicated to serving families of Black boys in pre-kindergarten through second grade. The program will provide intensive wraparound services to address the child's mental health needs and equip parents with knowledge, skills, and training to address health needs. In addition, this strategy will narrow the opportunity gap in early childhood services by creating high-quality early childhood education focused on Black cultural pride, children's mental health, and parental involvement.

Proposed work:

- Design, equip, implement, and evaluate a high quality, state-of-the-art early childhood program model
- Expand the early intervention wraparound program to Urbana and Rantoul

Requested funds will support the following principal results of H4F. These results include:

1. Children and adults who have experienced trauma and/or impacted by COVID-19 will have increased support available.
2. Child well-being indicators will increase and improve children's mental health and wellness.
3. Decrease in school and community violence.
4. Communities will have early intervention and prevention resources and a sustainable path to reduce gun violence in the future.
