Public participation, Ronaldo (Ray) Say at the Sunday NAACP meeting Member Carter accosted them and then posted about them on FB. Harsh words.

Announcements: A reporter is here looking for Emily. Elly says the trial balance is in.

Discussion of Agenda: There will be a presentation from the DREAM folks tonight. The Aquifer presentation is postponed. There is a vote on the Data center task force. Highway has a vote because Member Carter again voted no on a Stark contract due to them displaying American flags. There is a vote on the RIFL act, Dr. Douglass will be here. Policy has the normal agenda.

Finance There are things that will need to be made tidy as the Auditor has not completed some work. Some discussion on Travis doing the purchases not following policy work. Matt wonders if that is even legal as it is an auditor's duty. There are a few grants. The big item is the personnel line. Travis adds details.

Adjourn at 18:17 as we are in the main room because of the voting station in our usual spot.
