Kim Bowdry,
Associate Director for Intellectual & Developmental Disabilities
Staff Report – June & July 2024

CCDDB/CCMHB/IDDSI: In May, I started drafting Special Provisions to be a part of each contract, if funded. I also updated the 'Pre-Contract Checklist' for PY25. After completion of May Board meetings, agencies were emailed informing them of the Boards' decisions and any revisions and/or pre-contract requirements that needed to be completed before issuing contracts. I opened forms in the Online Reporting System for agency revisions. I developed draft contracts that were sent to agencies with the Pre-Contract Checklist and award emails. As revisions were made to the application forms, I reviewed the revision to confirm that they met the requirements. I then spent late May and June sending contracts for signature. As contracts are completed, I am saving them and printing them for contract files. I have also been saving and printing Pre-Contracts checklists upon completion. Pre-Contract Checklists were also uploaded to the Online Reporting System.

PY2024 4th Quarter programs were cloned in preparation for PY2025. The cloning of PY2024 4th Quarter Programs creates the PY2025 1st Quarter programs for data entry into the Online Claims system. This requires creating each program for PY2025 and then setting up the claims options and associating them for each program. I also set up the new claims system for the newly funded CCRPC Community Life Short Term Assistance program.

I updated the Compliance Dashboard requirements for PY2025. As agencies have been submitting their Letter of Engagement from their Audit firm, I have been uploading them onto Compliance Dashboard in the Online System and printing them for contract files.

I met with a representative from one agency to assist them in making corrections to quarterly reports. I also met with representatives from CCRPC to discuss the newly funded Community Life Short Term Assistance Program. I met with a representative from an agency to discuss program requirements.

I participated in monthly meetings with CCDDB/CCMHB staff and staff from the Family Resiliency Center, related to the Evaluation Capacity project.

Learning Opportunities: On June 20, 2024, Lara Davis, Human Rights Authority Disability Rights Manager presented "What is The Illinois Guardianship and Advocacy

Commission’s Human Rights Authority.” This event was held at the Champaign Public Library.

Disability Resource Expo: Continued planning of the 2024 Expo is underway. The Expo is scheduled for October 26, 2024, at Market Place Shopping Center. Expo Coordinators are working to secure sponsors now.

MHDDAC: I participated in the June MHDDAC meeting on June 25, 2024. The group takes July off and will reconvene on August 27, 2024.

ACMHAI: I attended the July ACMHAI I/DD committee meeting. The I/DD Committee partnered with the Illinois Self-Advocacy Alliance to host a 3-part Training Series. ‘Envision Illinois: Uniting Disability & Domestic Violence Services to Achieve Safety, Justice & Healing’ was presented on July 9, 2024 during the ACMHAI I/DD Committee meeting. I also attended the ‘Self-Advocacy 101’ webinar held on June 18, 2024. ‘Let's Learn About Supported Decision-Making’ is scheduled as a webinar on August 20, 2024. I am planning to attend the August Virtual Membership Meetings, scheduled for August 1 and 2, 2024. I also participated in the June Executive Committee Meeting.

NACBHDD: I participated in the May and June I/DD Committee Meetings.

Human Services Council: HSC is taking a summer break. Meetings will resume in August.

Other: I also participated in several webinars and the Engage IL meeting.

Staff Report-July 2024

Summary of Activity

Several of PY2025-26 CCMHB and IDDSI contracts were awarded by June 30, 2023. All contracts were sent via Adobe Sign. Before contracts could be awarded, the agencies had to submit a contract checklist, certificates of liability and insurance, letters of engagement from an auditing agency, and modify their PY25 forms. At the time of writing, only the contracts for Courage Connection, First Followers, and Don Moyer Boys and Girls Club, as well as one of Rosecrance's programs, had not been completed. I also collaborated with Ms. Canfield on the PY25 Funded Programs with Summaries.

Contract Negotiation Meetings: Ms. Canfield, Mr. Wilson and I met with both WIN Recovery and GCAP in June for contract meetings to resolve any contract questions or concerns. None noted at the time of this writing.

Contract Amendments: Terrapin Station Sober Living requested and received a contract amendment to redistribute funds from the Equipment line item to the Professional Fees category due to an unexpected invoice from their CPA firm.

ACMHAI Committee: On June 4th, Committee members heard a presentation from Ms. Koren VanderWeele Program Manager, TASC Center for Health and Justice on Deflection Program. TASC (Treatment Alternatives for Safe Communities) offers clinical assessments, case management, and recovery support for thousands of justice-involved adults and youth each year.

CCMHDDAC Meeting: At the June meeting, the members received updates from the participating agencies. The July meeting was canceled, and the committee meeting will resume in August.

CIT Steering Committee: Ms. Canfield attended the June 5th CITSC meeting.

Continuum of Service Providers to the Homeless (CSPH): At the June meeting, members heard a presentation from David Murphy, Champaign County Veterans Assistance Commission. The July CSPH meeting was cancelled and will resume in August. This meeting will be taking place in person at the City of Champaign Neighborhood Services Building located at 205 W. Park Ave, downtown Champaign from 3pm-5pm.

CSPH Monitoring Committee: The committee will reconvene in August and will monitor the FY24 DHS Emergency Solutions Grant recipients (CCRPC and CTSO) within the next few months.

Evaluation Capacity Committee Team: Attended and participated in the monthly meetings with the Evaluation Capacity project staff. The next meeting is scheduled for July 12th.

EXPO Steering Committee: Has reconvened and an initial goal is acquiring sponsors for the 2024 Expo. Volunteers help with making follow-up calls or visits. A script will be provided for making phone calls.

IPlan Behavioral Health Workgroup: At the June meeting, Mr. JR Lil, Community Health Plan Manager provided members with an update on the Community health needs assessment, strategies for directing community resources towards supporting substance use prevention and recovery and an update on CUPHD's credible mind resource.

Rantoul Service Provider's Meeting: I took a vacation day for the meeting on June 17th. The next meeting is scheduled for Monday, July 17th, at 9 a.m. via Microsoft Teams.

Reentry Executive Committee & Council Meetings: At the June meeting, the Council learned about Rosecrance data on clients served and what services they were provided for. Also, members heard a presentation from Ms. Oyatta Hanny, Operations Assistant at Workplace Development for RPC and the Reentry Resource Fair update. The next meeting is on July 10th at the Rosecrance campus on Moreland Blvd, Champaign.

Reentry Housing Coalition Meeting: This committee has been postponed until further notice.

SOFTT/LANS Meeting: The June meeting was canceled due to Juneteeth Day. The next SOFTT/LANS meeting is Wed, July 17th at 1:30pm at Champaign Public Library, Pavilion Room A/B.

Other Activities:

- On June 24th, I attended a Brazelton Touchpoints webinar: Parenting While Black 2024.
- On June 13th, Ms. Summerville and I met with Rosecrance to discuss diversity, equity, and inclusion practices and the CLC Plan.
- On June 4th, Ms. Canfield and I met with Promise Healthcare to discuss their utilization measure for their Mental Health Services program.

- Prepared meeting materials for CCMHB/CCDDB regular meetings, special meetings, and study sessions/presentations.
- Attended meetings for the CCMHB/CCDDB.
- Composed minutes for the CCMHB/CCDDB meetings.
- I will be taking time off in July/August for vacation.

July 2024 Staff Report- Shandra Summerville Cultural and Linguistic Competence Coordinator

CCMHB/DDB Cultural Competence Requirements for Annual CLC Plans connected to National CLAS (Culturally and Linguistically Appropriate Services) Standards

Annually organization organizations are responsible for submitting CLC Plan with actions supporting the National CLAS Standards. Cultural Competence is a journey, and each organization is responsible for meeting the following requirements:

1. **Annual Cultural Competence Training-** All training related to building skills around the values of CLC and ways to engage marginalized communities and populations that have experienced historical trauma, systematic barriers to receiving quality care. Each organization is responsible for completing and reporting on the training during PY24/PY25
2. **Recruitment of Diverse backgrounds and skills for Board of Director and Workforce-** Report activities and strategies used to recruit diverse backgrounds for the board of directors and workforce to address the needs of target population that is explained in the program application.
3. **Cultural Competence Organizational or Individual Assessment/Evaluation-** A self-assessment organizational should be conducted to assess the views and attitudes towards the culture of the people that are being served. This also can be an assessment that will identify bias and other implicit attitudes that prevent a person from receiving quality care. This can also include client satisfaction surveys to ensure the services are culturally responsive.
4. **Implementation of Cultural Competence Values/Trauma Informed Practices-** The actions in the CLC Plan will identify actions that show how policies and procedures are responsive to a person culture and the well-being of employees/staff and clients being served. . This can also show how culturally responsive, and trauma informed practices are creating a sense of safety and positive outcomes for clients that are being served by the program.
5. Outreach and Engagement of Underrepresented and Marginalized Communities defined in the criteria in the program application.
6. **Inter-Agency Collaboration-** This action is included in the program application about how organizations collaborate with other organizations formally (Written agreements) and informally through activities and programs in partnership with other organizations. Meetings with other organizations without a specific activity or action as an outcome is not considered interagency collaboration.
7. **Language and Communication Assistance-** Actions associated with CLAS Standards 5-8 must be identified and implemented in the Annual CLC Plan. The State of Illinois requires access an accommodation for language and communication access with qualified interpreters or language access lines based on the client's communication needs. This includes print materials as assistive communication devices.

Here is the link to the Blueprint on how National CLAS Standards can be implemented at every level in an organization. [CLAS Blueprint](#)

CCMHB/DDB Funded Agencies are responsible for completing a quarterly report for the 2nd and 4th Quarter. The 2nd Quarter report provides a mid-year progress report on the CLC requirements. The 4th Quarter report is an annual report on CLC activities that were submitted with the application. In September, there will be an annual report provided to the Board Members for PY 24. If you have any questions, please feel free to reach out for additional information.

BRIEFING MEMORANDUM

DATE: July 31, 2024
TO: Members, Champaign County Developmental Disabilities Board (CCDDDB)
FROM: Lynn Canfield, Executive Director
SUBJECT: Engage Illinois

Background

This memorandum introduces a statewide effort to redesign the formal system of I/DD supports and services. Similar efforts have included the [2008 Blueprint for System Redesign in Illinois](#) assembled by Human Services Research Institute and the Illinois Council on Developmental Disabilities. The Ligas class action lawsuit, filed in 2005, resulted in a 2011 consent decree with terms which might have accelerated recommendations of the Blueprint’s seven-year plan. While some structural changes resulted, insufficient appropriations for community-based care and inflexible service categories drive Illinois’ continued low rankings among all states, e.g., 49th in fiscal effort on community services in 2023.

In March 2024, the parents of a disability rights advocate sent the attached letter to Governor Pritzker and Department of Human Services Secretary Quintero, providing a compelling overview of this history and challenging the state to right the course. This set in motion a new collaboration to redesign the state’s I/DD system. The leadership of Engage Illinois take a positive approach rather than feeling defeated by the very slow progress.

Note: when searching for links to publicly available information on the project, I found an unrelated Engage IL project but not much on this one. As a result, background documents are attached instead of linked.

Relationship to the CCDDDB

The Board’s three-year plan includes a goal for advocacy and seven related one-year objectives. System advocacy supports the Board’s statutory responsibility for planning a local system aligned with rules set by the Illinois Department of Human Services. On a practical level, the state’s rules and the service gaps have major impact on CCDDDB allocations and contracts. Input from funded providers, self-advocates, and their loved ones puts the Board in an excellent position to understand unmet needs and to advocate for long-term solutions.

As Board members identify opportunities for this kind of advocacy, they and CCDDDB staff may join broad efforts. Currently, we participate in the Going Home Coalition, They Deserve More, and state and national trade association I/DD committees. At least one representative has been involved with each Engage Illinois meeting. The first convening was held in Springfield on May 24 and led to the Northstar Plan ’24, which is also attached.

Re: Illinois System change serving individuals with disabilities

Dear Honorable Governor Pritzker and Secretary Quintero,

It is with heart wrenching concern that I draw your attention to our current system for meeting the burgeoning needs of our individuals with disabilities in the state of Illinois. We, the parents, are writing to you as the voice for our sons and daughters with developmental disabilities, your constituents and a marginalized population. We emphatically request you, OUR legislative voice with the power to make change, for the tenacity needed to spearhead a new direction in the Illinois' IDD service system. We are currently functioning in a 'reactive' mode to a system that has been identified in multiple distinguished reports as antiquated in our country. The only way to 'fix' the way our system is operating is to literally re-boot the system. Here are the facts:

1. There is an overwhelming precedent of states that have not only closed all their institutions but have embraced the federal mandates for 'person centered systems' at the CORE of all their service delivery systems for individuals with disabilities.
2. This well known national best practice currently taking place is now a priority for all states due to the requirements of the Home & Community Based Settings (HCBS) Rule. As you well know, states not in compliance with this rule are required to

submit their plan for compliance to CMS for approval. Hard deadlines for non compliance will result in service delivery partners serving our population losing Medicaid waiver funds further impacting this human service crisis.

3. It is a civil rights violation to continue down this road in Illinois paved with litigation to force a response to the laws in this regard.
4. It is not fiscally responsible to spend our tax dollars to fight battles **preventing** the support of this population like trying to eliminate the Ligas decree and allocate money in the FY 25 budget, \$72 million, to build infrastructure of the institutions.
5. Instead, funds need to be invested in building the **infrastructure of community capacity** for the **14,000 plus on the waiting list**, not the 1600 plus held in non compliance of the HCBS Rule in the Illinois institutions.
6. It is not fiscally responsible to advertise and hire MORE staff for the institutions we need to close at the high cost of union wages and salaries instead of reallocating those funds to build our DSP/PSW staff capacity.
7. Illinois has been languishing at the bottom of the states in complying with Federal guidelines to improve the lives of individuals with disabilities by initiating system-wide person centered approaches to service facilitation.
8. Clearly, Illinois has not followed this direction and in fact still supports the unions with its political power rendered in maintaining the 7 State Operated Developmental Congregate Settings (SODC's).
9. The individuals with disabilities in these institutions are the ones that desperately need a 'union' and the political power to give them equity and a REAL home.
10. Illinois is one of only several remaining states to continue to maintain, place and strategically move people around in institutions.
11. Taxpayer resources need to be reallocated with the federally matched "money follows the person" initiative and rebalanced to develop more capacity for community living options instead of supporting institutions with numerous publicized and documented cases of neglect, abuse and mismanagement.

12. The individuals with disabilities are literally being held hostage in these antiquated institutions reminiscent of the 1950's. It is an egregious civil rights violation.

I hear the cry of frustration from other parents I talk to on a daily basis, WHY is there no change?

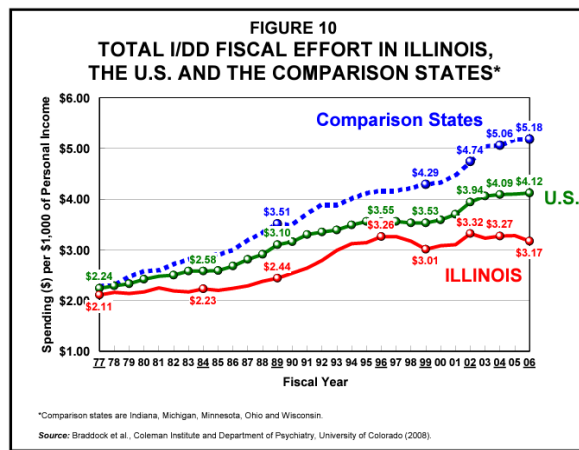

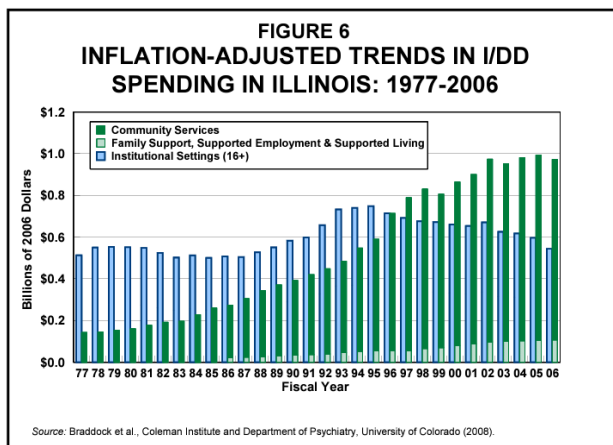

- Aging parents are exhausted with raising and supporting their disabled adult children. All are driven by the same question, "what will happen to my child when I am gone?"
- The swelling age of parents and their children, are a growing and powerful tsunami, foreshadowed in 2007 and now threatening to sink the Illinois DDD service system.
- These parents are not without capacity to take action. They have been fighting for equal rights, equal educational opportunities, supported job opportunities and now housing choice literally for the entire lives of their children with developmental disabilities. **They are Ready...again!**

There was a glimmer of hope in 2007 when Illinois hired the Human Services Research Institute (HSRI) in partnership with the Illinois Council on Developmental Disabilities (ICDD) to research and submit a **Blueprint for System Resign in Illinois** (Blueprint). The thorough 3 part document highlighted a comprehensive system analysis, complete with environmental scan, gap analysis, recommended actions likely to provide the best return on investment and *projections* regarding the full impact of recommended changes over a seven (7) year period. Had the Blueprint been initiated, the impact of these recommendations would have happened by 2015 jumpstarting direct evidence based leadership in our state and lifting Illinois out of its current position of 49th out of 50 states in delivering services to support the disabled. What happened to the Blueprint for System Redesign in Illinois? Who was responsible for burying this?

There is a chill in my bones as I review this statement in the Gap Analysis section of the Blueprint, 2008:

“Whatever the factors, Illinois today operates a service system that is at odds fundamentally with the Olmstead decision benchmark that people with disabilities be served in the most integrated setting. The Illinois Disability Services Act signed by Governor Blagojevich in 2003 and other pending legislation (HB 1715, HB 2041, SB 581) illustrate Illinois’ system reform efforts. However, significant effort is needed to transform the system from one that resembles the

configuration of developmental disabilities services during the 1980s, to one in line with the way services are commonly configured today.”

Today was 2008. Yet, **today's** today in 2024 is astonishingly similar to this.

Seven (7) SODC's, are dealing with repeated reports of neglect and abuse. Failing to move forward, Illinois continues to shuffle people between these institutions. It is heartbreaking and we ask, “must legal filings remain the most effective manner of producing compliance with the civil rights of this population in Illinois?”

Seventeen (17) years have now passed since the Blueprint, Environmental Scan & Gap Analysis of service delivery for the developmentally disabled population in Illinois. Why has the IDHS DDD held back from systems reform in Illinois? The projections were made 17

years ago. The projections from lack of action are now a huge reality. The question remains, WHY?

In the *"Services and Funding for People with DD in Illinois: A Multi-State Comparative Analysis"* also done for the Illinois Council on Developmental Disabilities in 2008, the following statistics were highlighted:

Although some increase in Community Services are indicated, the spending on SODCs continued at about the same rate over this period from 1977-2006.

Fiscal Effort in Illinois, the U.S. and the Comparison States

"Fiscal effort", represents the ratio utilized to compare states according to the proportion of their total statewide personal income devoted to I/DD services (Braddock & Fujiura, 1991). Combined fiscal effort in Illinois for institutional and community services grew substantially between 1984-96, a 46% increase from \$2.23 to \$3.26. However, Illinois' total fiscal effort declined between 1996-2006, from \$3.26 to \$3.17. Illinois has diverged from the U.S. fiscal effort trend, with a growing gap evident during 2002-06 (Figure 10). During 2004-06 Illinois total fiscal effort declined three percent. In 2006, Illinois ranked 40th in total fiscal effort nationally, a one position change in ranking from 41st in 2004.

The comparison states' total fiscal effort rankings in 2006 were: Minnesota (6th), Ohio (9th), Wisconsin (17th), Indiana (24th), and Michigan (36th). Fiscal effort in Illinois in 2006, \$3.17 per \$1,000 of aggregate statewide personal income, was 23% below the U.S. fiscal effort level of \$4.12. Moreover, Illinois' fiscal effort was 39% below the comparison states' average of \$5.18. Community services fiscal effort in Illinois advanced one percent from 2004 to 2006, from \$2.01 to \$2.04. In 2006, Illinois community fiscal effort was 39% below the U.S. community fiscal effort level of \$3.35. Illinois ranked 43rd in community fiscal effort in 2006. There was no change from its ranking in 2004. Comparison state community fiscal effort rankings in 2006 were: Minnesota (4th), Ohio (10th), Wisconsin (12th), Indiana (22nd), Michigan (28th). All comparison states were well above Illinois' ranking of 43rd.

Flash forward, 17 years...It is now March, 2024 and here are the stats in Illinois:

1. *Illinois must provide more funding for people with disabilities, Published in the Sun Times*
By State Rep. Lindsey LaPointe, State Rep. Lakesia Collins, State Rep. Nabeela Syed and State Sen. Celina Villanueva May 24, 2023
 - "Our state ranks 49th out of 50 states for funding and support of the estimated 300,000 Illinoisans with intellectual and developmental disabilities and their families."
 - "Illinois is six years out of compliance with the Ligas Consent Decree, which mandates that persons with disabilities living at home or in state-run institutions have the right to live in their communities. Community agencies want to provide at least a living wage to workers so they can respond to the profound need, but inadequate state funding means community homes are closing, consolidating, and unable to take new clients."
 - "PUNS waitlist for services is 14,933, with 5,548 people eligible for community-based services today with no place to go."
2. *Key points from Illinois Services for People with Intellectual and Developmental Disabilities by the Numbers, 2023, Published by The Institute on Public Policy for People with Disabilities*
 - 7 = number of state institutions
 - 1645 = number of people living in state institutions
 - 49 = number of states with fewer people living in state institutions than IL
 - 50th = Illinois ranking on percentage of people with IDD in out of home settings who reside in a setting of 1-6 people. Illinois has a higher percentage of people in 7+ settings than any other state.
 - 6 = number of years Illinois is out of compliance with the Ligas CD

So what is the reality check Illinois faces now, after IDEA, after Olmstead, after LIGAS? We are now facing Illinois' delayed compliance with the HCBS Settings Rule since March of 2017. Of course, there was the Pandemic, but here we are in March of 2024, 7 more years out of compliance and We, the parents, are raising our voices **LOUDLY** this time.

- We are old but **We are Ready**, as we have been throughout our children's lives to fight for what they deserve as human beings. The right to live a full life with CHOICE, just like you and me.
- **We are Ready** to Start the march of self advocates to Springfield.
- These six women, incredible examples, want to meet you both and talk. They want to tell you not only their stories but THEIR fear for others and their friends with disabilities NOT able to live a fully included life in the community. They want to know, Why?
- Bridget Brown , Rachel Costabile, Erika Kissel , Ashley Mcleod , Ruth Pligge and Erin Compton are all following their dreams due to the hard work of their families in a system that is difficult to navigate, understand and access services for families and the individuals with disabilities.
- These women have done an amazing job speaking up for others with disabilities, facing life changing obstacles, obtaining competitive employment and using entrepreneurship to pursue their goals despite disproportionate statistics of unemployment after leaving transition programs.
- Three of the ladies have moved into their own apartment using creative housing strategies developed by their parents to form a 'hybrid' of the options currently in the Illinois waiver system despite the barriers to CHOICE, and flexibility.
- Five of these women have self published their own 'Just a Dollop Cookbook' (justadollop.org) highlighting their personal journey to healthy living, and bringing dreams to life.

- Three of these women are extremely active self advocates with local, national and international representation as keynote speakers. One has her own website for advancing inclusion and inspiring others to do the same. (butterfliesforchange.org)
- There are hundreds more.... Individuals with disabilities are saying, **"We are Ready"** to go to Springfield too. **WE NEED CHANGE NOW.** They have been waiting far too long. **They** deserve better.

It is with the utmost faith that we call on you both to help turn the SPOTLIGHT on this issue by ["Dwelling in the POSSIBILITIES," Bridget Brown](#). There are literally thousands of families in Illinois struggling to figure out HOW to stitch together a sustainable 'Place to call Home' for their adult children with developmental disabilities. Between staff shortages, struggles to increase DSP wages & maintain hours, agencies at capacity, money needing to be reallocated from SODCs and ultimately a huge need for a NEW **Consumer Directed Community Support waiver plan**. We need a **REAL person centered waiver** based on the individual needs of the consumer, not just based on an 'open spot' in a CILA group home or 'stipends' for periodic 1:1 respite without the autonomy to craft their own choices with funding.

1. The 'elephant in the room' here is that 70% of the individuals with disabilities in the state of Illinois are still living with their parents and 25% of those parents are OVER 65. Tell us, what has to happen before this crisis explodes?
2. Please join us in turning the Illinois system on its heels without spending another dime on 'studies'! We the parents can tell you, the time is NOW.
3. Here's a thought, use that Blueprint we paid for: [2008 Illinois Blueprint for System Redesign](#).
4. Reach out to literally ANY of the other 48 other state programs doing better than Illinois for their models like Minnesota and Indiana, with midwest demographics.
5. Employ the federal resources AND technical assistance now available to help ALL states respond to the HCBS Rule:

- National Center on Advancing PersonCentered Practices and Systems (NCAPPS) [NCAPPS Resources](#) ,
- National Association of State Directors (NASDDS) [NASDDS](#) ,
- UIC:Department of Disability and Human Development [UIC Dept of Disability-Human Dev.](#)

You both have the power to make this the right time in Illinois. Our state is rich in resources. Thanks to you Governor Pritzker, Illinois is also more fiscally responsible and well positioned to 'shift funding', use some of the rainy day \$2Billion for a pending crisis (here now) and the funds remaining from the federal covid allocated money. Governor Pritzker, you are brilliant. YOU know how to do this! Secretary Quintero, you are passionate about human services, YOU know how to do this!

Governor Pritzker's belief that "Illinois is strongest when we look out for each other" is that foundation we need. We challenge you both. BE the agents for CHANGE so desperately needed in our state. Together, let's begin the work to make Illinois not only "***The best state in the nation to live, work, and raise a family***", but the ***BEST place in the nation for individuals with disabilities to live, work and make a place to call home.***

We are Ready!

Sincerely,

Sharon Costabile, *Founder of The Creative Housing Network*

Please take a moment and pause to follow the lead of Gary Smith, one of the authors of the Blueprint for Illinois who died while drafting this 'spot on' document in 2007 that is still unfortunately 'spot-on' in 2024.

In Memoriam Gary Smith

*"It is with great sadness that we must inform you that Gary Smith passed away on November 4, 2007. Gary joined the Human Services Research Institute in 2001 and served as a Senior Policy Fellow. He was the **lead author in compiling this Blueprint** and other products related to this project. In fact, this work was among his very last and was special to him. One of his first jobs in public service after leaving the Navy all those years ago was as staff to Governor Jim Thompson. In the mid 1970s he provided budget analysis and oversight for several major state agencies and programs, including developmental disabilities, mental health, public health, Medicaid, and corrections. Because of that experience we understood his strong connection and dedication to this project. And so, from that beginning to this end, the circle is completed.*

Overall, Gary was a towering figure in the developmental disabilities field. His prodigious knowledge of Medicaid financing to help fund human services programs and his understanding of the rich history of our field were unmatched. He was a resource to hundreds of people around the country in so many different ways. He was always generous with his time and his expertise and never let an email request for help go unanswered. More than that, he was committed to what we do and to the well being of people with disabilities. He was constantly trying to exhort us all to do better. He was a dear friend, one of the funniest and most decent people any have ever met. We will miss him terribly as will all who worked with him."

Engage Illinois: Uniting for progressive community support solutions resulted in the collaborative **Northstar Plan '24.**

May 16 2024

Summary of the Day & Focus Committees Identified

Engage Illinois included a broad group of stakeholders gathered by families of citizens with disabilities. Self advocates were asked to dream about their own futures and several shared their personal stories and struggles living in the community. By including families, providers, advocate groups, allies and administrators from the state of Illinois, there was diverse participation by those committed to refocusing Illinois systems in support of its citizens with disabilities.

The group discussed strategies to promote inclusive supported living for individuals with disabilities in Illinois. Some of the items emphasized included the need for sustainable structures and adequate funding, the importance of involving self-advocates and families in policy-making processes, and the potential for public comment and feedback on waiver amendments. The group discussed the critical need for a shared vision and agreed upon goals for the Illinois IDD system, as well as the importance of transparency, positive change, and education on a variety of subjects including how to navigate and prepare for the adult service system and to understand how the state budget supports the DD system. Finally, they discussed ways to enhance education and support services for individuals with disabilities by creating a universal integrated system, addressing core issues through unified vision, improving the Illinois infrastructure for ease of use, accessibility, efficiency and cross division collaboration.

The system used for strategic planning, a hybrid of the PATH/MAP process (developed by Marsha Forest and Jack Pierpoint of Inclusion Press in Toronto, CA) adapted for organizations using the [Appreciative Inquiry](#) & [Future Search](#) Models. The process was successful on a number of levels most importantly, by establishing common ground with a unified goal amongst a broad range of participants with differing perspectives. Celebrations and successes within the state were focused on first, reinforcing the efficacy of the participants to achieve current and future success together. Self advocates and their families were a key to centering solutions on the recipients of the services. Current issues labeled 'the NOW' during the process illuminated gaps and inconsistencies in services. The well known but sometimes contentious concerns were requested ahead of the meeting, summarized, and grouped ahead of time into potential workflow areas. This strategy allowed for acknowledgement of the challenges without eliciting conflict. The common parent fear for the future sustainability of services for their adult children once they are gone was also voiced.

Dreaming of the future together as a group was truly amazing with the discovery that all participants in fact shared a common goal: their hope for a bright and full life with appropriate support and a menu of choices for these citizens. With solid agreement in the ability of this incredible group to achieve the 'North Star' vision for people with disabilities, the second half of the meeting was very productive. Using

a one year future search for May, 2025, the group easily identified clear attainable goals that were positive and possible within the one year future search period.

Although the time frame of 4 hours was slightly short to identify action steps together, many participants were able to network and discuss the opportunities for workgroups around the goals after the meeting ended. The input of virtual and in person attendees resulted in the identification of potential committees around key goals. At the end of the day, participants were asked to sign up for future participation within areas of expertise and interest. Several participants offered to follow up on developing these future workgroups.

An incredible amount of information was gathered, and compiled based on subject area. Following is a summary of that input from both individuals in person, and virtually participating. Virtual participants did not have the opportunity to sign up for committees so a followup virtual meeting will be scheduled to allow for equal opportunities to contribute to solutions developed through workgroups identified.

In order to maintain the momentum toward the positive and possible goals identified, the following dates for post meeting follow up have been tentatively determined. These dates would be implemented virtually with the exception of the annual Engage Illinois meeting to track our successes together in person. If we have benefited at all from the recent isolation during the pandemic, the need for periodic in person networking and connections proves itself to be extremely valuable.

Dreams

For Illinois Citizens with Disabilities

Pretend you have a magic wand and anything can happen

- Equity in funding
- people with disabilities living where they want and having the supports they need
- smoother transition from school to post-school
- data-informed trauma therapy
- Home and community – inclusive supports
- Funding that follows the person lifelong
- Sustainable life
- Roommate matching
- No waiting list for supports and services
- Community employment
- Mobile nursing
- More people pulled from PUNS and NO MORE PUNS LISTS
- Transportation – on demand and on time
- People in SODCs living where they want and money follows them into the community
- 10 billion \$\$\$ invested in to community-based services
- Adequate health care accessibility
- Civic kindness
- Better employment pool
- Staff retention and recruitment
- CILA system that is person -Driven
- Funding and resources for medically and behaviorally complex individuals
- A menu of choices – Robust and accessible for people with I/DD
- A system designed to provide Lifelong person- centered supports that are culturally sensitive so everyone can receive services
- Unbundled housing and services
- Illinois ranks in the top half of the nation in providing community living, supports and services
- Better coordination between state and federal government
- No marriage penalty
- Decreased reliance on congregate settings

THE Now Where is Illinois Now?

No person-centered Focus /principles

- Overserved and underserved
- Medical model vs Social Model
- I/DD regulations refocused on PCP
- Replace state discovery process
- No Opportunities for individual choice
- Waiver choices don't meet person centered goals
- No alignment between what Illinois policy says and actual application

Complex Needs

- No CILA or community living options
- No Provider incentives to serve
- No Specialized care staff
- No Justification of rejection
- Reliance on extensive family support

Current waiver program

- No flexibility
- No innovation
- No creativity
- EVV
- Regulation barriers
- Inequality of services HBS/CILA

Support Services

- Not adequate Natural supports
- Staff shortage
- Limited Community building options
- Lack of Family and I/DD connections
- Not enough ISC or Parent Education
- No Supported Living
- No interim Bridge services while waiting
- Services and housing are not separated
- No spectrum of options or choice
- Slow or lack of response to crisis
- No hope

Lack of capacity in the community

- Long waiting list for PUNS
- A result of inaction
- Lack of stable workforce development
- Lack of investment over time
- Second layer of waiting for PUNS

Funding

- Inequality of Resources: HBS, CILA, SODC (State Operated Developmental Centers)
- Overly complex funding benefits
- Stagnant for too long leaving long term shortage to build capacity
- Need more money for case management Not enough money \$ in Home Based Supports
- Not using money follows the person

Infrastructure efficiency

- Integrated software systems
- Non-accessible and antiquated web interface
- In-accessibility
- Complicated navigation
- Distressed system

Champaign County
Board for Care and Treatment of Persons with a Developmental Disability

dba CHAMPAIGN COUNTY DEVELOPMENTAL DISABILITIES BOARD

BY-LAWS

Adopted by the CCDDDB 1/4/05. Amended 12/5/06 and 7/23/14 and 6/23/2021.

I. PURPOSE AND FUNCTIONS:

- A. The Champaign County Developmental Disabilities Board (CCDDDB) is established under the Illinois Community Care for Persons With Developmental Disabilities Act (IL Compiled Statutes, Chapter 50, Sections 835/0.01 to 835/14 inclusive) in order to “provide facilities or services for the benefit of its residents who are intellectually disabled or under a developmental disability and who are not eligible to participate in any such program conducted under Article 14 of the School Code, or may contract therefore with any privately or publicly operated entity which provides facilities or services either in or out of such county.”
- B. In order to accomplish these purposes, the CCDDDB performs the following functions:
 - 1. Planning for the intellectual and developmental disabilities services system to assure accomplishment of the CCDDDB goals.
 - 2. Allocation of local funds to assure the provision of a comprehensive system of community based intellectual and developmental disabilities services.
 - 3. Coordination of affiliated providers of services for individuals with intellectual and/or developmental disabilities to assure an inter-related accessible system of care.
 - 4. Evaluation of the system of care to assure that services are provided as planned and that services are effective in meeting the needs and values of the community.
- C. The CCDDDB shall perform those duties and responsibilities as specified in Sections 835/0.01 to 835/14 inclusive of The Community Care for Persons with Developmental Disabilities Act.
- D. Nothing in these By-laws alters the authorities and obligations codified in state or federal law.

II. MEMBERSHIP:

- A. The membership of the CCDDDB shall include the maximum allowed by statute.

- B. The members of the CCDDDB shall be appointed by the Chairperson of the Champaign County Board, with the advice and consent of the Champaign County Board. The CCDDDB shall recommend nominees for membership to the Chairperson of the Champaign County Board. *(Note: this language is per statute. For Champaign County, the Chairperson, and therefore the appointing officer, is the Champaign County Executive.)*
- C. Members of the CCDDDB shall be residents of Champaign County and, as nearly as possible, be representative of interested groups of the community concerned with developmental disabilities as well as the general public. To the extent possible, members of the CCDDDB shall represent the geographic areas of the County. Members may be representative of local health departments, medical societies, local comprehensive health planning agencies, hospital boards and lay associations. No member of the CCDDDB may be a full-time or part-time employee of the Illinois Department of Human Services - Division of Developmental Disabilities (DHS/DDD) or a Board member or employee of any facility or service operating under contract to the CCDDDB. The term of office for each member shall be three (3) years. All terms shall be measured from the first day of July within the calendar year of appointment. Vacancies shall be filled for an expired term in the same manner as original appointments.
- D. Any member of the CCDDDB may be removed by the appointing officer for absenteeism, neglect of duty, misconduct or malfeasance in office, after being given a written statement of the charges and an opportunity to be heard thereon.

III. MEETINGS:

- A. The CCDDDB shall meet at a minimum, annually in July. The CCDDDB may meet each month as necessary at such time and location as the CCDDDB shall designate. Per the Open Meetings Act (5 ILCS 120/1 et seq.), a change in the regular meeting dates is to be properly posted for the public a minimum of 10 days prior to the meeting.
- B. The CCDDDB may meet in Study Session during the intervals between monthly meetings to receive reports, discuss issues, and develop recommendations on matters brought to it by the Executive Director and the President.
- C. Special meetings may be called by the President or upon the written request by any member to conduct such business that cannot be delayed until a regular meeting date. The purpose of the meeting may be to address matters brought by the Executive Director or any member of the CCDDDB.
- D. The Executive Director shall prepare an agenda for all meetings of the CCDDDB and shall cause the notice of the meeting and the agenda to be sent to all members at

least five (5) days in advance of the meeting - except in the case of special/emergency meetings wherein forty-eight (48) hours notice shall suffice.

- E. Public notices and the conduct of all meetings shall be in conformance with the Illinois Open Meetings Act. Notice/agenda for each meeting shall be posted on the Champaign County website and in the physical location of the meeting and shall be continuously available for public review during the 48-hour period preceding the meeting.
- F. The presence of a majority of members shall constitute a quorum for any meeting of the CCDDDB. For a member to attend a meeting by other means than physical presence (e.g. by video or audio conference), a majority of members must be physically present at the properly-noticed meeting, and a majority of physically present members must agree to allow the electronic attendance. Such attendance may only be due to: personal illness or disability; employment purposes or CCDDDB business; or a family or other emergency. A member wishing to attend a meeting by other means must notify the Board before the meeting unless advance notice is impractical. Provisions for a quorum of members to attend the meeting by other means, due to a declared disaster, are set forth in the Illinois Open Meetings Act. These By-laws affirm the Developmental Disabilities Board's intent to exercise flexibilities as the law allows.

IV. OFFICERS:

- A. The officers of the CCDDDB shall be a President and a Secretary.
- B. Election of the officers shall take place at the July meeting of the CCDDDB.
- C. Officers shall be elected for one year, with term beginning upon election and ending no later than August 1 of the following year. No member shall hold the same office for more than three (3) consecutive years, except that officers may remain in their then current positions until their successors can be chosen.
- D. Duties of Officers:
 - 1. President:

Subject to the control and direction of the CCDDDB, the President shall maintain a current general overview of the affairs and business of the CCDDDB. The President shall have the privilege of voting in all actions by the CCDDDB.
 - 2. Secretary:

The Secretary shall act in place of the President in the latter's absence. The Secretary shall attest to the accuracy of the minutes of the CCDDDB meetings.

3. The President, Secretary, or a member as designated by the President shall have the authority to sign all legal documents approved by the CCDDDB.
4. The President may make, with the advice and consent of the CCDDDB, temporary appointments of interested citizens to assist the Board in fulfilling designated responsibilities or to perform certain functions or tasks.

V. STAFF:

The CCDDDB shall engage the services of an Executive Director who, subject to the control and direction of the Board, shall have general charge, oversight, and directions of the affairs and business of the CCDDDB and shall be its responsible managing head. The Executive Director shall have the responsibility for the employment and discharge of staff pursuant to the provisions of applicable personnel policies. The Executive Director shall have the authority to sign on behalf of the CCDDDB all necessary papers pursuant to CCDDDB action and shall have the authority with the endorsement of the President to make contracts and expenditures within the approved program and budget. The Executive Director or delegate shall attend all meetings of CCDDDB. The Executive Director shall also be liaison between the CCDDDB, staff, and affiliated agencies and implement policies regarding communications between them.

VI. FISCAL AND GRANT YEARS:

- A. The fiscal year of the CCDDDB shall be the same as that of the County of Champaign, i.e., January 1 through December 31.
- B. CCDDDB contracts for Intellectual and Developmental Disability programs and facilities shall be for the same fiscal year as the State of Illinois, i.e., July 1 through June 30.

VII. RULES OF ORDER:

Roberts' Rules of Order shall be followed in deliberations of the Board unless otherwise precluded by these By-laws.

VIII. CHANGE OF BY-LAWS:

Any or all of these By-laws may be altered, amended or repealed by a majority vote of the Board at any regular or special meeting, provided that written notice of the proposed action is given in the call to the meeting and that a quorum is present.

DECISION MEMORANDUM

DATE: July 31, 2024
TO: Members, Champaign County Developmental Disabilities Board (CCDDDB)
FROM: Lynn Canfield, Executive Director
SUBJECT: FY2025 Champaign County CCDDDB and I/DD Special Initiatives Fund Budgets

Overview:

This memorandum presents DRAFT budgets for the Champaign County Mental Health Board (CCMHB), Champaign County Developmental Disabilities Board (CCDDDB), and I/DD Special Initiatives Funds for County Fiscal Year 2025 (January 1 - December 31, 2025). Board approval is requested for the CCDDDB and I/DD Special Initiatives Fund budgets. The CCMHB budget is for information only, to clarify how CCDDDB administrative costs will be determined.

These drafts form the basis for staff planning and may be revised later in the year based on updates from the County Executive, Administrator, and Budget Director, as revenue and expense estimates change. Initial drafts are submitted to the County's online systems (Munis and PADS) for the Champaign County Board's August budget hearings. Final budgets will be presented during their appropriations process in November. Because the CCDDDB and CCMHB each have authority over their budgets, subsequent approvals will be requested prior to submission of any revised budgets to the County Board.

Attached are proposed 2025 CCMHB, CCDDDB, and I/DD Special Initiative Fund Budgets, with background details including comparisons of proposed 2025, projected 2024, and actual revenues and expenditures for fiscal years 2014 through 2023. The Intergovernmental Agreement between the CCMHB and CCDDDB defines cost sharing and other arrangements. The I/DD Special Initiatives Fund Budget is under joint authority of the Boards.

Highlights of All Draft Versions:

- Projected 2025 property tax revenue assumes 3.5% growth over 2024 for the CCDDDB and CCMHB, with no adjustment for collection rate below 100%.
- Miscellaneous Revenue includes revenue returned by agencies in a different fiscal year than paid (CCDDDB and CCMHB budgets).
- Miscellaneous Revenue also includes Expo revenue and any refunds or honoraria. These are paid to the CCMHB and then split between the Boards (CCMHB budget).
- Contributions & Grants are the largest expense in each budget, as they include contracts with organizations providing services to the populations of focus (all three budgets).
- Neither Board will transfer an amount to the I/DD Special Initiatives Fund but will be asked to approve use of fund balance to cover 2025 expenses.
- The I/DD Special Initiatives budget is based on joint decisions by the Boards regarding allocations to providers for special projects.

- Some CCMHB expenses are not shared by the CCDDDB (anti-stigma film sponsorship, MHB Contributions & Grants, and MHB-specific insurance, for example).
- Some expenditure categories have changed as the County Auditor’s Chart of Accounts is adjusted to conform with government accounting standards (CCMHB budget).
- Expo consultant charges and other costs are now included with other Professional Services, Rental, Printing, Advertising, Operational Supplies, and Uniforms. Between 2020 and 2022, these had been separated for easier tracking (CCMHB budget).

Anticipated Revisions for Later Approval:

- If subsequent Board action changes allocations or any other expense category, later versions of 2025 budgets will incorporate these.
- County staff will provide information about the costs of staff benefits and may also offer suggestions for improvement. Revenue projections may also be updated later in the year.
- The County Board will discuss all 2025 budgets at hearings in late August.
- With each set of revisions, projections will be updated.

Decision Section:

Motion to approve the attached DRAFT 2025 CCDDDB Budget, with anticipated revenues and expenditures of \$5,465,394.

INTERGOVERNMENTAL AGREEMENT

THIS INTERGOVERNMENTAL AGREEMENT is entered into this 16th day of March, 2016 by and between the **Champaign County Mental Health Board** (hereinafter the "Mental Health Board") and the **Champaign County Board for the Care and Treatment of Persons with a Developmental Disability** (hereinafter the "Developmental Disabilities Board"). The parties hereby enter into this INTERGOVERNMENTAL AGREEMENT to delineate respective roles, responsibilities, and financial obligations associated with the shared administrative structure that shall be responsible for the staffing and operation of the Mental Health Board and the Developmental Disabilities Board. Both parties understand and agree as follows:

WITNESSETH

WHEREAS, the Mental Health Board has a statutory responsibility (Illinois Community Mental Health Act, 405 ILCS 20 / Section 0.1 et.seq.) to plan, fund, monitor, and evaluate mental health, substance abuse, and developmental disability services in Champaign County;

WHEREAS, the Developmental Disabilities Board has a statutory authority (County Care for Persons with Developmental Disabilities Act, 55 ILCS 105 / Section 0.01 et. seq.) to fund services and facilities for the care and treatment of persons with a developmental disability;

WHEREAS, the Mental Health Board and Developmental Disabilities Board have overlapping responsibilities pertaining to planning, funding, monitoring, and evaluating developmental disability programs and services in Champaign County;

WHEREAS, the members of the Mental Health Board and the Developmental Disabilities Board are appointed by the Chair of the Champaign County Board with consent of the Champaign County Board and as such have committed to share the same administrative structure to maximize the funding available for direct mental health and developmental disabilities programs and services;

WHEREAS, the Parties agree sharing an administrative structure will reduce administrative costs, maximize available funding for direct services, and assure an integrated planning process for developmental disabilities and behavioral health programs and services;

NOW, THEREFORE, it is the agreement of the parties that this INTERGOVERNMENTAL AGREEMENT is entered into in order to assure an efficient, ongoing, cooperative effort that will benefit people with disabilities in Champaign County.

The Parties Agree to the Following Arrangements for a Shared Executive Director and Joint Programs:

1. The chief administrative employee shall serve in a dual (i.e., shared) capacity as Executive Director of the Mental Health Board as well as Executive Director of the Developmental Disabilities Board.
2. The terms and conditions of the Executive Director's employment shall be delineated in an employment contract with both the Developmental Disabilities Board and the Mental Health Board as Parties to the agreement.
3. Each Board shall complete a separate annual performance evaluation of the Executive Director. If either Board rates the Executive Director as "less than satisfactory," a Joint Personnel Committee comprising two (2) officers of the Mental Health Board and two (2) officers of the Developmental Disabilities Board shall be convened to assess the situation and formulate recommendations. A recommendation of termination by the Joint Personnel Committee, or any other action proposed, shall require ratification by each Board by majority vote. The Joint Personnel Committee shall have no other function.

An annual performance review conference with the Executive Director shall be convened by the Presidents of the two Boards. This conference shall be used to provide feedback about performance and discuss goals and objectives for the coming year.

4. Process for selection of a new shared Executive Director: At such time as it becomes necessary to fill the shared position of Executive Director for the Mental Health Board and the Developmental Disabilities Board, the search and decision process shall include the following steps and processes.
 - a. The Mental Health Board and the Developmental Disabilities Board shall develop and agree upon selection criteria and job description for the shared Executive Director position. If necessary, a separate document delineating the search process shall be developed and agreed upon by each Board.
 - b. The Presidents of the two Boards, with the advice and consent of the two Boards, shall appoint a Search Committee to manage the search and selection process for the shared Executive Director using the job description and selection criteria.
 - c. The Search Committee shall report, in advance, a general schedule for the search process, any advertising content to be used, shall request budget support for the search process, and shall keep the two Boards informed about activities and progress associated with the search with regular reports at each Board meeting during the search schedule.
 - d. Ultimately, finalists for the shared Executive Director position will be determined by majority vote of the Search Committee and forwarded to the two Boards.

- e. If within 45 days of the planned time of completion of the search, from the schedule in part (c) above, the Search Committee is unable to come to a decision about finalists, then the two Boards may elect to extend the search time to a specific later date or to start the search again from the beginning. If the two Boards do not so elect, this shall be considered to imply that a shared Executive Director is no longer viable and the process of termination or amendment of this agreement shall commence.
- f. The Executive Director shall be chosen from among the final candidates by majority vote of each Board. If the two Boards do not reach mutual agreement, then the two Boards may elect to start the search again from the beginning. If the two Boards do not so elect, this shall be considered to imply that a shared Executive Director is no longer viable and the process of termination or amendment of this agreement shall commence.

The Parties Agree to the Following Financial Commitments:

5. There shall be ongoing communication between the Mental Health Board and the Developmental Disabilities Board. On at least a quarterly basis, the shared Executive Director shall meet with the Presidents of the Mental Health Board and the Developmental Disabilities Board to review the status of the provision of administrative services, to discuss coordination of funding for developmental disabilities services, to coordinate regarding joint projects and activities, and to address any other items pertinent to the operations of either Board. The Presidents shall report on the discussion and any actions taken at regular meetings of each Board.
6. The Mental Health Board shall provide funding for developmental disabilities services using the FY12 amount of \$529,852 as a base with annual increases or decreases predicated on the percentage of increase or decrease in the levy fund in subsequent years.
7. The organization of Champaign County Government makes it cumbersome for administrative costs to be paid by both the Mental Health Board and the Developmental Disabilities Board. To simplify matters, all administrative costs shall be paid through the Mental Health Board fund/account. The Developmental Disabilities Board will transfer their share of administrative costs to the Mental Health Board for this purpose.
8. The split for administrative costs on the date of execution of this agreement is 42.15% for the Developmental Disabilities Board share with the remainder paid by the Mental Health Board. This percentage is based on a time study of staff effort to determine the salary cost split between the Boards. Subsequent appropriate cost sharing adjustments, based on time studies, pro rata allocation, or other mutually agreed approach shall be determined through the regular meetings between the Presidents of the Mental Health Board and the

Developmental Disabilities Board with the advice and consent of the two Boards.

9. In preparation for the annual budget process, the Executive Committee shall review the proposed administrative costs of the Mental Health Board budget to assure the share in paragraph (8) above is applied only to expenditures which are common for both boards. Administrative costs which are specific to the Mental Health Board or to the Developmental Disabilities Board shall be excluded from (i.e., backed out of) the shared cost pool.
10. All current and future "jointly sponsored programs and activities" shall be shared equally between the Boards unless each Board agrees to some other allocation. These include, but are not limited to, various Acceptance, Inclusion, and Respect programs intended to address discrimination, violations of civil rights, and other stigma directed to people with disabilities.

Miscellaneous Provisions:

11. Nothing contained herein serves to limit, alter, or amend either party's duties, rights, or responsibilities as set out in applicable State statutes, laws, or regulations.
12. This agreement can be amended at any time based on needs identified at the quarterly Presidents Meeting or by either of the two Boards.
13. This agreement may be terminated by first providing notification of intent to terminate the agreement at the President's Meeting, followed by majority vote of either Board, or in the event of disagreement about candidates for the Executive Director position as described in Paragraph 4 above. In the event of a decision to terminate the Intergovernmental Agreement, full implementation of the termination and separation shall be coordinated and concurrent with the Champaign County Budget and fiscal year (January 1).

Governing Law:

14. This Agreement shall be interpreted, construed, and governed by the laws of the State of Illinois.

Entirety of Agreement:

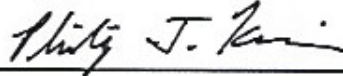

15. This Agreement embodies all representations, obligations, agreements, and conditions in relation to the subject matters hereof, and no representations, obligations, understandings, or agreements, oral or otherwise, in relation thereto exist between the parties except as expressly set forth herein and incorporated herein by reference. This Agreement constitutes the entire agreement between the Mental Health Board and the Developmental Disabilities Board on the subject matters hereof and supersedes and replaces any and all other understandings, obligations, representations, and agreements, whether written or oral, express or implied, between or by the Mental Health Board and the Developmental Disabilities Board. This

Agreement may be amended or terminated only by an instrument in writing duly executed by the parties hereto.

IN WITNESS WHEREOF, the Parties have caused this INTERGOVERNMENTAL AGREEMENT to be executed by their authorized representatives on the 16th day of March, 2016.

ADDENDUM TO INTERGOVERNMENTAL AGREEMENT

This Addendum to Intergovernmental Agreement is entered into this 27th day of November, 2020, by and between the Champaign County Mental Health Board ("MHB") and the Champaign County Board for the Care and Treatment of Persons with a Developmental Disability ("DDB").

Whereas, MHB and DDB entered into an Intergovernmental Agreement dated June 30, 2012 ("Agreement"), revised March 16, 2016 ("Agreement"), and amended September 17, 2014 and February 20, 2019,

Whereas, MHB and DDB desire to amend the Agreement by providing for the sharing of costs related to the acquisition, maintenance, and disposition of residences to be used to provide Community Integrated Living Arrangement ("CILA") Services,

Whereas, with financing provided by one or more local banks, MHB acquired residences in Champaign County to be leased to a CILA provider to provide housing to residents in Champaign County who qualify for CILA services,

Whereas, MHB paid the remaining mortgage balance (interest and principal) which has allowed for acquisition of two residences and provision of services to eligible persons, so that as of May 2019, the MHB had contributed a total of \$500,000, and the DDB \$300,000 to the project,

Whereas, per October 2020 resolution, the titles for each property were transferred from the MHB to the DDB,

Now, therefore, MHB and DDB hereby agree as follows:

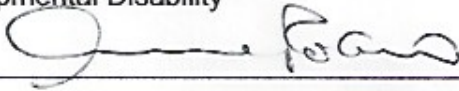

1. MHB and DDB have agreed that for so long as a residence is owned by DDB and used to provide CILA services to residents of Champaign County, each party shall be responsible for one-half of all costs associated with the acquisition of such residences, the debt payments associated with such residences, the maintenance costs of such residences and the costs associated with any disposition of a residence.
2. Prior to the contributions of the DDB becoming equal to those of the MHB, if expenses related to the CILA fund exceed the amount available in the annual budget, the DDB will transfer the additional amount to the CILA fund, reducing the remaining DDB obligation.
3. After the contributions of each Board have become equal, the CILA fund will continue to receive equal contributions from each board, by annual interfund transfers, for ongoing expenses associated with the properties. This annual amount will be based on most recently completed fiscal year actual expenses plus 10%.

4. If expenses related to the properties exceed the amount available in annual CILA fund budget, a request to transfer from CILA fund balance may be made. If fund balance is insufficient or transfer not possible, the Boards may agree to contribute equally to the fund as needed.
5. MHB and DDB agree that once a residence is no longer to be used to provide CILA services, DDB shall enter into a listing agreement with a realtor in an attempt to sell such residence.
 - A. If the homes are sold prior to such time as the total DDB contribution has become equal to that of the MHB, net proceeds from sale of the homes shall first be paid to MHB in an amount equal to the MHB's contribution that is greater than the then DDB's contribution. Any fund balance or net proceeds remaining will be split equally between the two Boards, as interfund transfers from the CILA fund to each of the MHB fund and DDB fund.
 - B. If the homes are sold after the contributions have become equal, the current balance of the CILA fund and proceeds from the sale of the homes will be split equally between the two boards, per the original agreement.

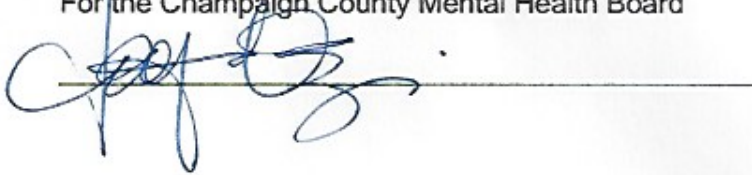

In witness whereof, the parties have executed this Addendum as of the date first written above.

As this Addendum contains the entire agreement between the Champaign County Mental Health Board ("MHB") and the Champaign County Board for the Care and Treatment of Persons with a Developmental Disability ("DDB") concerning the operations, finances and disposition of any matter related to the CILA (formal) homes, by mutual agreement, the Addendums of Feb 20, 2019 and Sept. 17, 2014 are null and void.

DECISION MEMORANDUM

DATE: July 31, 2024
TO: Champaign County Developmental Disabilities Board (CCDDB)
FROM: Lynn Canfield, Executive Director
SUBJECT: Renewal of 2-1-1 MOU with United Way

Background:

The purpose of this memorandum is to seek approval for renewal of the cost-sharing agreement with United Way of Champaign County (UWCC) for 2-1-1 information and referral services contracted between UWCC and PATH, Inc. A draft updated version of the agreement is attached. The CCDDB and Champaign County Mental Health Board (CCMHB) have supported this service since its launch in Champaign County. 2-1-1 is a project of [United Way Worldwide](#).

Budget Impact:

The cost of the Champaign County contract has been shared equally by United Way of Champaign County and the CCMHB/CCDDB, which in turn split the total cost at 57.85% and 42.15% respectively. \$11,250 is the current and proposed annual amount to be contributed to UWCC by the CCMHB and CCDDB. This would be paid in quarterly installments from CCMHB Professional Services and included with costs the CCDDB covers by transfer to the CCMHB. If all agree, the annual amount to the CCMHB would be \$6,508 and to the CCDDB \$4,742.

Decision Section:

Motion to approve the attached Memorandum of Understanding with United Way of Champaign County for 2-1-1 Services at an annual cost of \$11,250, pending similar approval by the CCMHB, and to authorize the Executive Director and Board Officer to enter into the agreement.

MEMORANDUM OF UNDERSTANDING
United Way of Champaign County (UWCC)
and
Champaign County Mental Health Board (CCMHB)
and
Champaign County Developmental Disabilities Board (CCDDB)

2-1-1 Information and Referral Services

The United Way of Champaign County (UWCC) and the Champaign County Mental Health Board (CCMHB)/Champaign County Developmental Disabilities Board (CCDDB) are the primary community-based local funders of human services in Champaign County and as such have collaborated to assure information and referral services are available and accessible to the citizens of Champaign County (i.e., First Call For Help). The advent and availability of 2-1-1 Information and Referral Services will improve access and efficiency and maximize community impact in terms of efficacy.

The Parties hereby enter into this Memorandum of Understanding to delineate respective roles, responsibilities, and financial obligations associated with the implementation of 2-1-1 Information and Referral Services which are to be provided by PATH, Inc.

The Parties agree to the following terms and conditions to implement this Memorandum of Understanding:

1. UWCC will enter into a contract with PATH, Inc. for the provision of 2-1-1 Information and Referral Services for the people of Champaign County. The CCMHB/CCDDB shall not be a party to the contract between UWCC and PATH, Inc.
2. The CCMHB/CCDDB shall provide funding to UWCC for 2-1-1 Information and Referral Services. The annual amount to be paid shall be \$11,250.00 and shall be paid in quarterly installments. If revenue from other funders becomes available to support 2-1-1 Information and Referral Services, the share paid by the CCMHB/CCDDB shall be equal to but shall not exceed the share paid by UWCC. The Parties agree that the contract maximum between UWCC and PATH, Inc. will not exceed \$45,000. If UWCC determines that the contract amount will be in excess of said amount, CCMHB/CCDDB will be contacted immediately and advised of the contract maximum. At that point, CCMHB/CCDDB has the option to terminate this Memorandum of Understanding immediately.
3. All relevant documents pertaining to the contract for 2-1-1 Information and Referral Services between UWCC and PATH, Inc. shall be provided to the CCMHB/CCDDB in a timely manner. If the CCMHB and/or CCDDB determine additional documents are needed, UWCC will provide them upon request if such documents exist and if UWCC has access to them.
4. UWCC shall identify the CCMHB and CCDDB as partners in the provision of 2-1-1 Information and Referral Services in news releases, press conferences, and any written material made available to the public.
5. UWCC hereby expressly agrees and covenants to hold harmless and indemnify the CCMHB/CCDDB, their Boards, employees, representatives, agents, assigns and

successors from any and all liability, claims of liability or legal action or threat thereof by other parties arising out of this contract, the contract with PATH, Inc., or the provision of the information for or services identified, derived from or initiated as a result of the 2-1-1 Information and Referral Services. CCMHB and CCDDDB are solely funding sources as outlined herein and are undertaking to provide no services and assume no liability.

Either Party may terminate this Memorandum of Understanding with 90 days' written notice to the other. Upon the mutual written consent of the Parties, this Memorandum of Understanding may be terminated sooner. UWCC may terminate this Memorandum of Understanding immediately on written notice to CCMHB/CCDDDB if UWCC terminates its contract with PATH, Inc., for cause under Section 1.3 thereof. UWCC may also terminate this Memorandum of Understanding on 60 days' written notice to CCMHB/CCDDDB if its contract with PATH, Inc., is terminated by either party for convenience under Section 1.4 thereof.

Nothing contained herein serves to limit, alter, or amend either Party's duties, rights or responsibilities as set out in Federal and State statutes, laws, or regulations.

In witness where of, the Parties have caused this Memorandum of Understanding to be executed by their authorized representatives on this ____ day of _____, 2024.

BRIEFING MEMORANDUM

DATE: July 31, 2024
TO: Members, Champaign County Developmental Disabilities Board (CCDDB)
FROM: Lynn Canfield, Executive Director
SUBJECT: Review of Strategic Plan, Funding Priorities, and Application Process

Background

The purpose of this memorandum is to set the stage for evaluating and planning Champaign County’s system of supports and services for its residents who have Intellectual and Developmental Disabilities (I/DD). Strategic plans and objectives and annual funding priorities are typically reviewed during the fall, as the Board establishes priorities and decision support criteria for Program Year 2026 (July 1, 2025 to June 30, 2026) and updates objectives for 2025 for the Three-Year Plan (January 1 to December 31, 2025).

In 2021, we completed a [community needs assessment and report](#), as is done to develop the Three-Year Plan which remains in place and will be extended an additional year, per Board action May 22, 2024. We partner with the Regional Vermilion-Champaign Executive Committee on shared health needs assessments, priorities-setting, and community health plans. The collaborative has launched a needs survey which is open through the summer, with results available later in the year, and priorities setting in early 2025 which might be useful to our own work next year. This fall we will update objectives for 2025, recognizing that this document primarily guides the work of CCDDB staff and board members.

In August of 2023, the CCDDB and Champaign County Mental Health Board (CCMHB) held a joint study session to learn from self-advocates about our community’s relevant resources and areas for improvement, especially regarding inclusion of residents who have I/DD. Many comments from that session are featured in the PY2025 funding priorities documents for the CCDDB, the CCMHB, and their shared I/DD Special Initiatives fund.

The Allocation Priorities and Decision Support Criteria will be reviewed and updated in advance of open application process for PY2026 funding. In recent years, primarily due to the global pandemic’s upending of systems, these priorities and criteria were adapted more than usual, and further reorganization and revision may support the Board’s mission.

Many technical modifications and content revisions of our **application and reporting system** and forms have been made to improve clarity and to align with what the Board is seeking from the funded supports as well as the outcomes sought by participants.

CCDDB Three Year Plan Goals, 2022-2024

The full [three-year plan with current year objectives is posted online](#).

A COORDINATED AND ACCESSIBLE CONTINUUM OF SERVICES AND SUPPORTS

1. Support a **continuum of services** to meet the needs of people with intellectual and/or developmental disabilities (I/DD), along with their families, residing in Champaign County.
Eight objectives for 2024:
Solicit proposals through competitive process; encourage use of models connected to input from people served; promote wellness through access to health/behavioral health care; identify outcomes of value to people served; expand residential and employment support to those without other funding; fund services not otherwise covered (including DSP incentive payments); in other collaborations, advocate for and with people with I/DD; support flexible service options.
2. Sustain the commitment to improving outcomes for members of **underrepresented and underserved populations**.
Six objectives for 2024:
Culturally responsive family support groups; technical assistance for CLC; training and professional development toward CLC; trauma-informed practice; assess public health threats to people with I/DD; update demographic data categories.
3. Improve **access to and engagement in services** through increased coordination among providers, community stakeholders, people with I/DD, their families, and other key supporters.
Five objectives for 2024:
Host learning opportunities; collaborate with local funders and various councils; in justice related collaborations, advocate for and with people with I/DD; use public input to advocate for systems change; track unmet needs by PUNS and local assessments.
4. Encourage high-quality **person-centered planning** and follow-through for people served by funding from the CCDDB and, through the Intergovernmental Agreement, from the CCMHB.
Five objectives for 2024:
Support PCP implementation and conflict free case management; focus on personal outcomes in PCPs; identify measures consistent with people's valued outcomes; track service utilization through online system; assess use of PCPs to learn preferences of those not using public forums.
5. Continue the collaborative working relationship with the Champaign County Mental Health Board (CCMHB).
Four objectives for 2024:
Maximize resources; with people with I/DD, improve access to integrated settings; promote inclusion; coauthorize use of I/DD Special Initiatives fund.

CHILDREN AND FAMILY FOCUSED PROGRAMS

6. Identify children at-risk of developmental delay or disability and support **early intervention services and family supports**.
Two objectives for 2024:
Support evidence-based/informed treatment for young children; promote culturally responsive supports and reduce disparities in care for young children.

7. Support **access to services and programs** for youth and adults with I/DD, with a preference for evidence-based practices to increase positive outcomes.
*Two objectives for 2024:
Improve transition from school to adult services; fund and advocate for flexible support for those in transition.*

COMMUNITY ENGAGEMENT AND ADVOCACY

8. Promote **inclusion and respect** of people with I/DD, through broad based community education efforts.
*Seven objectives for 2024:
AIR and Expo and student projects; promote other community awareness initiatives; family support networks; seek and share self-advocate input; support meaningful work and non-work community experiences; develop web-based resources; promote resources.*
9. Stay abreast of **emerging issues** affecting service and support systems and access to services and be proactive through concerted **advocacy efforts**.
*Seven objectives for 2024:
Workforce stabilization; track class action cases/consent decrees; track other Olmstead cases and federal rules; monitor changes in Medicaid waivers; advocate for increased state funding and improved system; encourage highest quality personal outcomes; monitor local transition to new ISC.*

Program Year 2025 CCDDDB Priorities

The full [PY25 approved funding priorities document is posted online](#). During an [August 16, 2023 study session](#), self-advocates offered input for planning and possible collaborative advocacy. Their comments and [prior assessment data](#) informed many priorities. Self-advocates, family members, and their networks are critical to CCDDDB efforts.

PRIORITY: Self-Advocacy no PY25 applications

From Kentrell, a study session presenter:

I would like to be a part of more events out of town that give me the chance to be an advocate, like the Speak Up Speak Out Summit. I don't usually have the money to do this on my own, and I would prefer to have another advocate or staff member attend with me.

Human Rights & Advocacy (HRA) Group members also wrote about the need for more funding for advocacy opportunities.

Nationally, about 90% of care is provided by family, friends, and community rather than through the formal service system. People with I/DD and their families lead improvements of that system and raise awareness of disabilities and of how the system works or fails. People who have I/DD can inform and lead self-advocacy and peer support groups. Families and other supporters can as well. These groups are uniquely effective at:

- improving others' understanding of I/DD and of the rights of people with I/DD,
- peer mentoring and networking,
- developing and sharing information on resources, and
- advocating and directing advocacy at the local, state, and federal levels.

PRIORITY: Linkage and Coordination

Two PY25 contracts, with two agencies, totalling \$939,345

When asked what would make daily life easier or better, self-advocates spoke of more information about available resources, services, and eligibility and noted that some public benefits are not adequate and are impacted by other income.

People who are eligible for but not receiving state Medicaid “DD waiver” funding should have access to benefits and resources, including those benefits and resources which are available to people who do not have I/DD. Of interest are:

- Conflict-free Case Management and Person-Centered Planning aligned with federal standards for Home and Community Based Services, to help identify, understand, and secure benefits, resources, and services a person chooses, and
- Intensive case management or coordination, guided by a self-directed plan, for people with complex support needs, e.g., related to aging, physical or behavioral health issue, loss of family member or caregiver, or other traumatic experience.

PRIORITY: Home Life

Two PY25 contracts, with two agencies, totalling \$828,000

For this and the next four priorities, we consider self-advocates’ input about existing supports they would like to secure, keep, or increase. They frequently mentioned transportation and support staff, along with “people to talk to when I have questions.”

People who have I/DD should have housing and home life matched to their needs and preferences. Individualized supports may include:

- assistance for finding, securing, and maintaining a home,
- preparing to live more independently or with different people, and
- given the limitations of community residential options through state waivers, creative approaches for those who qualify for but do not receive these services.

PRIORITY: Personal Life

Four PY25 contracts, with three agencies, totalling \$784,972

People who have I/DD can choose supports which lead them to personal success and resilience, in the least segregated environment. These might include:

- as with an I/DD Special Initiatives priority, assistive equipment or other accessibility supports and training in how to use technology such as electronic devices, apps, virtual meeting platforms, social media, Internet access, and online privacy/security,
- speech or occupational therapy,
- respite or personal support in the individual’s home or other setting of their choice,
- training toward increased self-sufficiency in personal care, and
- strategies to improve physical and mental wellness.

PRIORITY: Work Life

Three PY25 contracts, with two agencies, totalling \$838,000

People with I/DD who have an interest in working or volunteering in the community may find well-matched opportunities through individualized support. People should expect to be less isolated socially, safer due to relationships formed at work, and better able to contribute their talents. Focus on these aspirations and abilities, in the most integrated settings possible, to help people achieve their desired outcomes through:

- job development, job matching, and job coaching, preferably in the actual community work setting,
- technology to enhance a person's work performance and reduce on-site coaching,
- community employment internships, paid by the program rather than the employer, especially for people who have relied on traditional day program,
- support for a path to self-employment or business ownership,
- transportation assistance, and
- education of employers about the benefits of working with people who have I/DD which then results in work for people with I/DD.

PRIORITY: Community Life

Three PY25 contracts, with two agencies, totalling \$1,278,500

Per self-advocate input and earlier survey and assessment results, people with I/DD seek a fuller social and community life. Support which is person-centered, family-driven, and culturally appropriate, might offer:

- development of social or mentoring opportunities,
- transportation assistance,
- support for building social and communication skills, including through technology,
- connection to opportunities which are available to community members who do not have I/DD, both in-person and in digital spaces, and
- access to recreation, hobbies, leisure, or worship activities, both in-person and in digital spaces.

Darrin identified county-wide physical infrastructure changes which would improve access, but some activities with staff also improve his access. Members of the HRA wrote, "The mindset of the community isn't very welcoming. It seems like people judge folks with disabilities and we aren't respected." While changing the whole community's mindset is a tall order, paid staff can help people be seen and respected in the most integrated settings.

PRIORITY: Strengthening the I/DD Workforce

Two PY25 contracts, with two agencies, totalling \$278,000

Self-advocates who presented to the CCDDDB and CCMHB had positive comments about their current staff but said more staff are needed, in several roles. Agencies may propose strategies to strengthen the workforce, maintain the current service capacity, improve staff knowledge of technology 'access and use' for the benefit of the people they serve, and expand service capacity to meet the needs of all eligible residents of Champaign County.

Agencies may collaborate on a joint application proposing system-wide solutions:

- periodic retention payments with a performance standard,
- intermittent payments for exceptional performance,
- group and individual staff membership in professional associations which respect the I/DD workforce roles and offer networking and advocacy opportunities, and
- high quality trainings or certifications specific to the staff roles, combined with recognition and payment upon completion.

PRIORITY: Collaboration with the CCMHB: Young Children and their Families

Three PY25 contracts, with three agencies, totalling \$889,119

As a result of the pandemic, 20-30% of children are being identified as having Social-Emotional needs. This is a significant increase in children with SE needs. Dr. Belknap and

Ms. McGhee also share that there is a significant increase in speech referrals. They reported seeing diminished capacity with staff. Early identification and treatment can lead to great gains later in life.

Services and supports not covered by Early Intervention or under the School Code, for young children with developmental and social-emotional concerns, might include:

- coordinated, home-based services addressing all areas of development and taking into consideration the qualities and preferences of the family,
- early identification of delays through consultation with childcare providers, pre-school educators, medical professionals, and other service providers,
- coaching and facilitation to strengthen personal and family support networks, and
- identification and mobilization of individual and family gifts and capacities, to access community associations and learning spaces.

Through the Boards' intergovernmental agreement, the Champaign County Mental Health Board (CCMHB) has funded programs which complement those addressing the behavioral health of very young children and their families, and for which service providers collaborate as a System of Care for children and families.

Another collaboration of the Boards is the I/DD Special Initiatives Fund, supporting short-term special projects to improve the system of services. Short term projects piloting a unique solution or purchasing non-service supports will fit with the I/DD Special Initiatives Fund.

Through this fund, one PY25 contract for \$232,033 aligns with the IDDSI priority of Community Life.

Application Process

A timeline is posted online as “Important Dates” and is included in all board packets, offering details on the process of setting priorities, inviting applications for funding, reviewing submitted applications, and considering recommendations for awards. This timeline has been developed and revised to allow for adequate public notice, opportunity for agencies to register and apply, time for staff review and board consideration, and development of subsequent contracts for services. Each year adjustments are made to the application forms and instructions.

For PY2025 applications, the system was opened earlier than usual, giving agencies two additional weeks to review and complete all requirements. The timeline for PY2026 anticipates a similar earlier opening, but this is dependent on the board and staff completion of funding priorities and any related adjustments to the system. We do not anticipate major changes to the system other than those related to the funding priorities.

Given that the CCDDDB and CCMHB will hear from self-advocates in late September and the chance their input would substantially change the first draft of PY2026 funding priorities, we will concentrate on revisions as quickly as possible, in the hope of again launching the application cycle in late December.

Suggested Actions

The September board meeting packet will include a DRAFT Three Year Plan for 2022-2024 with a one-year extension and objectives for 2025. This document will be distributed to providers and stakeholders for input, and a final draft presented in November for board consideration. No change is suggested to this process.

A draft document of priorities for funding for Program Year 2026 is scheduled for presentation to the board in September or October. Feedback from self-advocates and board members in late September should be incorporated and a final draft presented in November or December. If additional discussion is needed, the Board may call a special meeting or study session. In addition, CCDDDB and CCMHB members are welcome to join each other's meetings and may be especially interested in discussions of priorities.

Changes to the application system require assistance from the system's developer. Staff will update instructions. Staff, Board, and public input will continue.

Changes to the Board's process for reviewing applications could include the addition of 'hearings' as early as the regular February meeting, during which agencies would briefly inform the Board about each funding request. Board members could use the early information to develop questions to be addressed later in the spring, including during the more formal reviews which typically take place in April. This suggestion is based on our discovery of different approaches used by similar boards in Illinois.

SUBJECT: ARPA Funding to Expand Paratransit

During the County Board's June 11, 2024 Committee of the Whole meeting, your Champaign County Older Adults' Needs Assessment offered data on transportation needs of the growing population of older residents. We are aware of similar needs among other groups, including people with intellectual/developmental disabilities (I/DD) or complex medical needs. If ARPA funds become available for reallocation, expansion of current paratransit services may be an appropriate response to these findings.

- At the late May launch of our collaborative community health needs assessment, we received public input regarding transportation needs of people with disabilities and complex medical conditions. *Attached* are letters from agency directors regarding how the current public transportation options might be expanded or improved to better meet the needs of the most isolated, excluded residents.
- On page 2 of the [CCDDB Funding Priorities for PY2025](#), data from July 2023 showed Transportation as the second highest unmet need among Illinoisans with I/DD. It was also frequently noted in state data from August 2022, as seen on page 2 of the [PY2024 CCDDB Funding Priorities](#).
- The [2022 Champaign County Community Health Needs Assessment](#) shows lack of transportation as a barrier to medical, dental, and counseling services (pages 27 – 29) and explains: “Transportation network is a measure of the adequacy of the transportation network to facilitate access to care. Key risk influencers include access and proximity to resources. While survey data indicate transportation was not a leading cause of inaccessibility, for Champaign County, 9% of the population is at elevated risk for transportation network. This is higher than the State of Illinois average of 6%.”
- The [CCDDB/CCMHB 2021 Needs Assessment Report](#) points to transportation needs on pages 15, 18, and 20. Secondary data reference it on pages 33 (state) and 35 (county). Individual survey results include numerous mentions (Appendix 1.)
- None of these recent findings have surprised us, since transportation has risen to the top of assessments of unmet needs for many years. [Page 6 of a DDB packet from 2011](#) shows that, per the state's database, Champaign County residents with I/DD sought help in this area more than any other listed support type.

Dear Champaign-Urbana Mass Transit District Director,

I am writing to you today as the Director of Greater Community AIDS Project of East Central Illinois (GCAP), a non-profit agency that serves clients living with HIV/AIDS in our community. Many of our clients rely on your paratransit services for essential transportation needs, such as medical appointments, care coordination services, and social activities.

Unfortunately, we have experienced a concerning decline in the accessibility and reliability of service provided by your paratransit program. Our clients, some of whom use wheelchairs and have other disabilities, are routinely left stranded due to a lack of available rides or unreliable scheduling. This not only impacts their ability to access essential services but also leads to feelings of isolation, stress, and depression.

Our clients have notified us that the text notification system used to inform them of their approaching ride is frequently faulty, leaving them waiting for extended periods without any updates. Additionally, there have been documented instances where our clients have been treated with disrespect by CUMTD call center staff after calling to report that their ride no-showed. This has resulted in our agency being forced to intervene by either arranging alternative transportation through Uber, or even personally picking up clients who have been abandoned.

We firmly believe that all members of our community deserve access to reliable and dignified transportation options. To address these concerns, we propose the following solutions:

- **Increased availability of paratransit rides:** Ensure there are enough vehicles and drivers to meet the growing demand for accessible transportation. This includes not limiting clients to one round trip ride per day.
- **Improved staff training:** Emphasize the importance of treating all clients with respect and dignity.
- **Reliable notification system:** Implement a dependable system for informing clients of their ride's arrival time.

GCAP stands ready to collaborate with your team to find solutions that will ensure all members of our community have access to reliable and respectful public transportation.

Thank you for your time and attention to this urgent matter.

Sincerely,

Darya Shahgheibi

Sure! Here are some thoughts... feel free to use all, part, or none. Or if I'm missing the mark on what you're talking about, just let me know!

Prior to starting our own transportation program, we spent a great deal of time talking with our members and their families about their needs around transportation in our community. While many people had great things to say about the MTD fixed routes and Paratransit services, it was clear that they did not fully meet the needs of people with I/DD. Common themes from our members' experiences and our observation was that the paratransit was difficult for some people to access, even though they had definite need for door to door service, the hours and availability to the paratransit service was too limited for the needs of some people, and the generally the convenience of the rides were lacking. This was especially an issue for people who used it for appointments or work when they may need to arrive very early or late because of the window of time for drop off with the service. Others reported that the service was too expensive for them to use it as much as they may need, given that so many are living on extremely low, fixed incomes.

Our participants often rely on paratransit over the fixed route systems. For many, the fixed route systems are too complicated, require the navigation of busy areas which are a significant safety issue, and they feel particularly vulnerable to impact of travel errors like missed stops, dealing with the social interactions that can occur with the other bus clientele, and the fear of being mistreated or taken advantage of because of their disability. Transportation has consistently come up as a major barrier to people living rich, independent lives. The paratransit currently does make a significant positive impact on this barrier but the need for more support is critical.

...On another note, since you seem to also be thinking about this... I've been learning a little more about a partnership that the CTA has in Chicago with Uber, where eligible residents are able to use Uber for rides for the same cost as a Paratransit ride (\$2). <https://www.pacebus.com/rap>

We've done a little initial outreach to MTD about this, but it would be SO cool if we could get something like this started here! Even if the Uber rides weren't all wheelchair accessible, I could see this significantly opening up the availability of the current accessible vehicles to better serve riders with that need.

Anyway, like I said, let me know if you'd like me to wax poetic on this in a different way :)

-Becca

Lynn,

Thanks for asking about this. I was aware of individuals who utilize the service as well as the early morning, weekend, holiday barriers. If you visit their website, they really do a nice job with efforts to be flexible and with varying times available, but not a cure all for all needs. I am aware that there have been many times when Community Employment staff have had to assist with transportation on holidays when MTD or ADA are not available and attendance is required. Please see brief examples below gathered from several different programs (Case Management, Employment Services and Community Living):

- I know two people that use it regularly and at times it doesn't fit with weekend work schedule.
- One family relies heavily on paratransit and more flexible options would help with plethora of medical appointments and weekend activities.
- Paratransit is needed early in the morning and late in the afternoon/evening/on the weekends.
- We have individuals who work at Carle and at the U of I Transfer Station who find transportation a barrier with these services.
- I have someone that uses this service on a daily basis for work and also when she wants to go do things. She benefits from these services tremendously.
- One individual who uses it daily and loves it. She says all she has to do is call 24 hours in advance and schedule her rides she needs. Her only current obstacle is her new work hours on Sunday are earlier and ADA doesn't start that early so her family has been pitching in and giving her rides to work Sunday mornings.
- Expanded services to rural areas are also needed for the same reasons.

Hi Patty!

I know you all are quite busy, including with items related to our contracts. Please consider this a completely extra and optional request.

If you get input from consumers and staff about the need for more paratransit in Champaign County, is that something you could summarize and share with me in a form I could then share publicly as part of advocating for expansion?

Have a great weekend!

BRIEFING MEMORANDUM

DATE: July 31, 2024
TO: Members, Champaign County Developmental Disabilities Board (CCDDB) and Champaign County Mental Health Board (CCMHB)
FROM: Allison & Dylan Boot, Disability Resource Expo Co-Coordinators
SUBJECT: Update on the 2024 Disability Resource Expo

Background:

Beginning in 2007 and originally conceived as a “DD Expo” by CCDDB Member Joyce Dill, the **DISABILITY** Resource Expo was an annual in-person event until 2020. To accommodate increasing vendors, sponsors, and attendees over the years, the Expo used more and more available space at Lincoln Square, then Fluid Events, and then Vineyard Church. Volunteers and CCDDB/CCMHB staff and consultants plan all aspects through committees over several months. The Expo relies on members of the ‘disability’ community to foster accessible and inclusive planning, events, social media, and a comprehensive resource directory at:

<https://disabilityresourceexpo.org>.

After the cancellation of the 2020 event, the Expo Steering Committee planned and hosted four monthly virtual events during late fall 2020 and early winter 2021. Each encompassed a different resource topic and included short overviews of all featured exhibitors and small exhibitor breakout sessions. A more in-depth presentation from a featured exhibitor was included in each event. Events were held on the Zoom platform with ASL interpreters. Exhibitor videos and featured presentations were captioned.

In 2022, after a two-year hiatus, a scaled back in-person Expo was held at Market Place Mall. 65 disability service providers participated as exhibitors. Approximately 1,200 people attended and were able to access local resources. The majority of feedback received from exhibitors and participants regarding the scaled back event and new location was positive.

The Expo returned to the mall in 2023 with higher expectations. We had a slight increase in the number of exhibitors. Through the hard work of everyone on the steering committee, we increased revenue by 20% while simultaneously reducing costs by 7%. Children's bags, a Halloween costume contest, and a face painter added enjoyment for children who came with their parents or other family members.

2024 Expo Updates:

This year's Expo is being planned for October 26, 2024, at Market Place Mall. We will serve our third year as co-coordinators of the Expo. This year marks the 15th annual running of our wonderful event and, to celebrate this, two special attractions are being planned. Additionally, we are proud to announce Thrivent Financial – East Central Illinois Group as the Expo's first "Featured Sponsor".

The two special attractions that are being planned are a) an adaptive clothing fashion show and b) inclusive sports demonstrations. Planning for the fashion show has commenced and we have gotten confirmations or possible confirmations from Old Navy, Forever 21, Kohl's, and JC Penney for outfit donations. Equability, an exhibitor in 2023 and 2024, specializes in adapting clothing and will be adapting all of our clothing for our models. Best Expo will be erecting a stage in front of Macy's.

Planning for the inclusive sports demonstrations is moving forward at a nice pace as well. We are working with Dick's House of Sport on this, so the special attractions will be in front of and just inside Dick's House of Sport. There will likely be four demonstration areas. The University of Illinois's wheelchair track team will be one, wheelchair basketball hosted by a Dick's employee that plays (not connected to UIUC) will be the second. Dick's is also putting us in contact with the regional Special Olympics representative, so we working with Special Olympics to fill the third demonstration slot. Finally, we are working CUSR to fill the final slot.

Sponsorship materials have been out for some time now and sponsors are starting to come in, including our Featured Sponsor. For \$2500, Thrivent Financial is getting increased exposure on many of our ads and special mentions during interviews. There have been several other platinum and diamond sponsors that have already committed, and it is only early July, so things are looking very positive.

Artists with the Alliance for Inclusion and Respect will be joining the Expo again this year. The artists did not experience any security issues last year and a number shared that they made over \$100 in sales. This was wonderful news and we definitely

want this to continue, so the presence of security and Expo staff and volunteers around their tables will remain at last year's level.

Exhibitor registration invitation emails went out two weeks earlier than last year. We are eager to reach, and bring to the Expo's attendees, new exhibitors. If you know of a new organization or business that serves people with disabilities in some way that you think would be a good fit at the Expo, please let us know. Often, an in-person visit is more successful, especially by someone they know. If you would be willing to make an in-person exhibitor invitation for the Expo, we will make sure that you are plenty prepared.

Expo representatives have been tabling at local events, including the Ebertfest Art Show, the CU Autism Network Walk & Resource Fair, and Tolono Days. Expo representatives might also be found at the following upcoming events: Senior Day at Champaign County Fair, Unit 4 Back to School Fair, Brightpoint Makes a Splash Resource Fair, and the Scarecrow Fest.

As the planned 2024 Expo date nears, we will reach out to representatives from Champaign-Urbana Public Health District to review mass health (including COVID-19) safety protocols and guidelines to ensure the safest possible event.

We are looking forward to a fantastic 15th annual **DISABILITY** Expo on October 26th, 2024 at Market Place Mall. We hope to see you all there!
