## **INTERGOVERNMENTAL AGREEMENT FOR GEOGRAPHIC INFORMATION SYSTEM SERVICE BETWEEN CHAMPAIGN COUNTY GIS CONSORTIUM AND PIATT COUNTY**

**THIS INTERGOVERNMENTAL AGREEMENT** (hereinafter “the Agreement”) is entered by and between the Piatt County and the Champaign County Geographic Information Consortium (hereinafter “CCGIS”) (collectively “the Parties”) on the date that it is fully executed by the Parties.

**WHEREAS**, Section 10 of Article VII of the Illinois Constitution of 1970 authorizes units of local government to contract or otherwise associate among themselves in any manner not prohibited by law or by ordinance; and

**WHEREAS**, the CCGISC and Piatt County wish to cooperate to provide Piatt County with GIS services.

**NOW, THEREFORE**, pursuant to the Intergovernmental Cooperation Act 5 ILCS 220/1 et. seq. and in consideration of the terms, conditions and covenants contained herein, or attached hereto and incorporated by reference, the Parties agree as follows:

1. **Employment of CCGISC:** Piatt County hereby agrees to engage the CCGISC, and the CCGISC hereby agrees to perform the services set forth in this contract.
2. **Cooperation of Piatt County:** Piatt County will make available at no cost to the CCGISC any information and data in the possession of Piatt County that is required as source documentation in the completion of GIS cadastral maintenance. This information will include deed records, survey plats, subdivision surveys, tax maps, and other documents providing property legal descriptions to be entered into the GIS.
3. **Personnel:** The CCGISC represents that it has, or will secure at its own expense, all personnel required in performing the services under this contract.
4. **Scope of Services:** CCGISC will provide services as described below.

### **A. CADASTRAL MAINTENANCE**

CCGIS will maintain the Piatt County cadastral GIS data layers according to recorded property transaction information provided to CCGISC from Piatt County. CCGISC staff will employ the same cadastral updating standards historically used for Champaign County to maintain the Piatt County cadastral GIS data layers. These standards include the addition of all appropriate line work to the boundary feature class, the creation of polygons as required, and the addition of appropriate annotation. GIS edits based on new property transactions will also be subjected to topology verification procedures.

Piatt County will supply all property transactions that occur over the duration of a month to CCGISC

the following month. Should CCGISC determine additional research is needed to understand the intent of any transaction, CCGISC will notify the appropriate Piatt County staff member and request additional information. This may include but is not limited to, deed and plat searches by Piatt County staff and/or discussions with Piatt County staff to clarify the property transaction. Transactions will be mapped within two weeks of the receipt of all necessary information.

**B. GIS LAYER MAINTENANCE AND CREATION**

**GIS Layer Maintenance:** CCGISC will maintain GIS data layers as requested by Piatt County and according to information supplied to CCGISC from Piatt County. These general GIS data layers include but are not limited to, annexations, municipal boundaries, zoning, voting precincts, tax increment or financing (TIF) districts, and B810 home sites. CCGISC staff will employ the updating standards used for Champaign County to maintain the Piatt County GIS data layers. These standards include the addition of all appropriate line work, the creation of polygons as required, and the addition of appropriate attribution. GIS edits will be subjected to topology verification procedures.

**GIS Layer Creation:** As Piatt County requests the creation of GIS data layers, a timeline and general cost estimation will be supplied to Piatt County from CCGISC. The cost estimation will be based upon the level of GIS support needed as described sections 5 and 7. CCGISC will supply project updates to the Piatt County GIS Officer and attend the monthly Piatt County mapping meetings if attendance is determined to be appropriate by the Piatt County GIS Officer.

**C. CUSTOM MAP PRODUCTION**

Upon request by Piatt County, CCGISC will create customized maps for Piatt County according to information supplied to CCGISC from Piatt County. All printing costs associated to any custom map requests will be paid for by Piatt County.

**D. PUBLIC WEB MAP - CHANGES AND GENERAL MAINTENANCE**

Upon request by Piatt County, CCGISC will alter the Piatt County base map web services and/or add or remove functionality to the mapping site - <http://maps.piattcounty.org>.

*E. GIS DATA DISTRIBUTION*

The CCGISC shall distribute the Piatt County GIS data to interested Piatt County departments as directed by the Piatt County Board. For departments that do not have software capable of viewing the Piatt County GIS data, a customized web application will be made available to Piatt County staff. If necessary, the CCGISC staff will provide training for the web application to Piatt staff as directed by the Piatt County Board. A training session will not exceed 2 hours.

Web applications require a high-speed internet connection and a compatible web browser. CCGISC staff will work with the Piatt staff to determine whether individual computers meet these requirements. Piatt County will be responsible for obtaining a high-speed internet connection and installing a compatible web browser.

The Piatt County GIS Officer will be supplied a copy of the Piatt County GIS data in a file geodatabase once per quarter – March, June, September, and December. This information shall be delivered to the Piatt County GIS Officer via a download link supplied in an email generated by CCGISC.

*F. GIS DATA REQUESTS AND DATA SALES*

The CCGISC staff will handle Piatt County's GIS data requests and sales utilizing the approved Piatt County data request, license agreement, and price structure documents. CCGISC will track all data sales in a sales database. This database will provide a means to store information including purchaser data, items and quantity sold, and total order amounts. The database will be able to produce monthly and calendar year accounting reports along with sales receipts and invoices.

*G. GIS DATA HOSTING, BACKUPS, AND ARCHIVING*

The CCGISC will utilize the functionality of its SQL Server Enterprise Geodatabase server to host the Piatt County GIS cadastral data. Enterprise Geodatabase technology can provide real-time access to view and/or edit GIS data through a high-speed Internet connection. The CCGISC will store the Piatt County cadastral data on its server and provide the necessary server administration tasks required to set-up user logins and grant appropriate data permissions to view and/or edit data over a high-speed internet connection (server administration falls under the level 2 support as described in *GIS Support* service). Piatt County will be responsible for obtaining a high-speed internet connection. Access to the Piatt County Enterprise Geodatabase will only be given to persons or entities at the request of Piatt County.

In conjunction with data hosting, the CCGISC will create regular file geodatabase backups of the Piatt County vector data. Approximately one month of backups will be retained on a CCGISC server. In addition, one backup per month shall be archived. While the backups ensure data security, they do not provide historic archives of the Piatt County GIS cadastral data. CCGISC will also create one annual tax map book archive/snapshot in a file geodatabase format. The tax map book back-up will be supplied each year to the Piatt County GIS Officer.

*H. WEB HOSTING AND MAINTENANCE:*

The CCGISC will host Piatt County web applications and services on a CCGISC server. Staff will maintain the CCGISC server to ensure it is up to date.

I. **QUALITY CONTROL:**
