RESOLUTION NO. 2026-94

RESOLUTION AUTHORIZING AN ADJUSTMENT
TO THE FINANCIAL ASSURANCE FOR THE CALIFORNIA RIDGE WIND FARM

WHEREAS, the Champaign County Board approved a Special Use Permit for the California Ridge Wind Farm in Resolution No. 7966 on November 17, 2011; and

WHEREAS, a special condition of approval of the Special Use Permit for the California Ridge Wind Farm in Resolution No. 7966 requires periodic updates to the Financial Assurance that is required pursuant to the Reclamation Agreement that provides for the eventual decommissioning of the California Ridge Wind Farm; and

WHEREAS, said Financial Assurance is to consist of both a Letter of Credit and an Escrow Account but should be converted to only an Escrow Account over the first 13 years of operation and the Financial Assurance was converted to only an Escrow Account in 2025; and

WHEREAS, the balance in the California Ridge Wind Farm Escrow Account at the end of February 2026 was \$7,863,733.78 and the Escrow Account will continue to accrue dividends, interest, and other income monthly; and

WHEREAS, a proposed Estimated Decommissioning Cost and Estimated Material Salvage Value Update by HDR Engineering Inc. for California Ridge Energy Project was received on March 3, 2026; and

WHEREAS, the Zoning Administrator has determined that, based on the proposed Estimated Decommissioning Cost and Estimated Material Salvage Value Update received on March 3, 2026, the total value of the Financial Assurance for the California Ridge Wind Farm should be decreased from \$7,863,733.78 to \$4,873,064; and

WHEREAS, the Environment and Land Use Committee has reviewed the proposed Estimated Decommissioning Cost and Estimated Material Salvage Value Update by HDR Engineering Inc. for the California Ridge Energy Project received 3/03/23 and recommended an adjusted total Financial Assurance Value of \$4,873,064; and

NOW, THEREFORE BE IT RESOLVED, that the County Board of Champaign County authorizes the following:

1. Paragraph (16) (f) of the Approved Reclamation Agreement for Case 696-S-11 that provides for no waiver of enforcement is hereby affirmed even though the timing of this financial adjustment is not in strict conformance with paragraph (4) of the Approved Reclamation Agreement.

- 2. The total value of the required Financial Assurance for the California Ridge Wind Farm is hereby decreased to \$4,873,064; and
- 3. The Escrow Account as required by the Approved Reclamation Agreement for the California Ridge Wind Farm may be reduced in value to \$4,873,064; and
- 4. The next financial adjustment per the Approved Reclamation Agreement for Case 696-S-11 shall occur in March 2028 subject to the following deadlines:
 - a. The proposed Decommissioning Cost Estimate and Material Salvage Value Update shall be submitted to the Champaign County Zoning Administrator not less than two weeks prior to the March 2028 meeting of the Environment and Land Use Committee of the Champaign County Board; and
 - b. The Champaign County Zoning Administrator shall inform the wind farm owner of the anticipated date of the March 2028 meeting of the Environment and Land Use Committee of the Champaign County Board no later than December 1, 2027.

GOVERNMENTAL ENTITY IN WHICH MS4 IS LOCATED:

Champaign County, Illinois

INTRODUCTION

Champaign County was identified as a small Municipal Separate Storm Sewer System (MS4) in March 2003 as part of the expanded Phase II of the National Pollutant Discharge Elimination System (NPDES) Storm Water Program.

champ

Mandated by Congress under the Clean Water Act, the NPDES Storm Water Program is a comprehensive two-phased national program for addressing the non-agricultural sources of storm water discharges which adversely affect the quality of our nation's waters. The Clean Water Act prohibits anybody from discharging pollutants through a point source into a water of the United States unless they have an NPDES permit. A point source is any discernible, confined, and discrete conveyance, such as a pipe, ditch, channel, or container.

Phase II required small MS4s in urbanized areas to obtain NPDES permits and implement six minimum control measures by using selected best management practices (BMPs).

Urban areas are delineated by the Census Bureau and are defined as a central place or places and the adjacent densely settled surrounding area, that has either a residential population of at least 5,000 people or encompasses at least 2,000 housing units. About 47 square miles (4.7%) of the approximately 1,000 square miles that make up Champaign County are included in the Champaign-Urbana urbanized area (see the attached map).

Champaign County is not a municipality but the regulatory definition of MS4 also includes any County owned roads with a drainage system. County Highway roadside ditches are currently the only point source discharges in the urbanized area maintained by Champaign County.

Champaign County must maintain compliance with the MS4 requirements of the NPDES Storm Water Program. MS4 compliance requires that an updated Notice of Intent (NOI) be on file at all times with the Illinois Environmental Protection Agency (IEPA). The NOI must explain which best management practices Champaign County will use to implement the six required minimum control measures. The six required minimum control measures are the following:

- **Public Education and Outreach.** Selected BMPs should educate the public on the various ways to reduce storm water pollution.
- **Public Participation and Involvement.** Selected BMPs should involve the public in developing, implementing, and reviewing MS4 best management practices.
- **Illicit Discharge Detection and Elimination.** Selected BMPs should identify improper discharges and spills to drainage systems and include enforcement mechanisms.
- **Construction Site Runoff Control.** Selected BMPs should enable construction site operators (builders and MS4s) to manage storm water runoff to reduce pollution.
- **Post-Construction Runoff Control.** Selected BMPs should enable property owners (developers and MS4s) to manage storm water runoff to reduce pollution from a site after construction activities have ended.
- **Pollution Prevention and Good Housekeeping.** Selected BMPs should enable the MS4 entity to minimize pollution from its own property and facilities by reducing pollution from streets, parking lots, open spaces and storage and vehicle maintenance areas and is discharged into local waterways or that results poor maintenance of storm sewer systems.

Champaign County has worked in cooperation with the other MS4s in the Champaign-Urbana Urbanized Area to share costs and expertise and common efforts to develop a regional consistency towards fulfilling the NPDES Phase II MS4 requirements.

Champaign County has sought to develop a plan suited to the MS4 requirements but also tailored to the abilities of an Illinois county. The NPDES Phase II MS4 requirements were included as a formal County land use policy in the Champaign County Land Resource Management Plan that was adopted in April 2010.

Champaign County filed a sixth NOI with IEPA to include the five-year period of April 1, 2025, to March 31, 2030. This document serves as the annual report for Year 1 activities.

B.M.P. MONITORING AND ASSESSMENT PROGRAM

Effective 3/1/16, each Small MS4 is required to implement a monitoring and assessment program to evaluate the effectiveness of selected best management practices (BMPs) at reducing pollutant loadings and water quality impacts. The monitoring and assessment program may include evaluation of BMPs and/or direct water quality monitoring, at the discretion of each Small MS4, but the program should be tailored to the size and characteristics of the Small MS4 and the relevant watersheds.

Outfall/Discharge Monitoring and Physical Stream Assessment

The Champaign County Unincorporated MS4 will collaborate with the municipal MS4 jurisdictions in Champaign County in developing a monitoring and assessment program for the Champaign County Unincorporated MS4 that matches as closely as possible the municipal MS4 monitoring and assessment programs. Municipal MS4 agencies in the Champaign-Urbana Urbanized Area rely on a combination of outfall/discharge monitoring and assessment of physical/habitat characteristics such as stream bank erosion caused by storm water discharges.

Methods and practices used for the Champaign County Unincorporated MS4 Monitoring and Assessment program will be based on municipal MS4 practices and methods as much as possible and will be supplemented as necessary by practices described in the following documents:

- *Illicit Discharge Detection and Elimination A Guidance Manual for Program Development and Technical Assessments*, published by the Center for Watershed Protection and Robert Pitt, University of Alabama, October 2004.
- *UNIFIED STREAM ASSESSMENT: A USER'S MANUAL Version 2.0, Urban Subwatershed Restoration Manual No. 10*, published by the Center for Watershed Protection, February 2005.
- *Stream Visual Assessment Protocol*, published by the United States Department of Agriculture Natural Resources Conservation Service National Water and Climate Center, Technical Note 99-1, December 1998.

Justification

The unincorporated Champaign County MS4 Area is highly interconnected with the municipal MS4 Area and using the same (or nearly the same) monitoring and assessment (M&A) methods to evaluate the effectiveness of storm water best management practices (BMPs) in the unincorporated MS4 Area may help minimize the overall costs of implementing and conducting the M&A program in the unincorporated MS4 Area; and should eliminate confusion that could otherwise result if a different approach were used than is used in the municipal MS4s; and may provide a more accurate overall understanding of the effectiveness of BMPs for the entire Champaign County urbanized area.

The *Unified Stream Assessment* (USA) is a continuous stream walk method that systematically evaluates stream conditions and that can be applied to both rural and urban streams. Staff can perform the USA with relatively minimal training. USA protocols should be adapted to meet agency needs and skills and to address regional stream conditions.

The USA includes specific protocols and model forms for documenting the assessments of Storm Water Outfalls and Severe Bank Erosion. The USA assessment for Storm Water Outfalls is very similar to the Outfall Reconnaissance Inventory (ORI) used in *Illicit Discharge Detection and Elimination*. Including ORI methods in

the USA Storm Water Outfall assessments can improve the overall assessment of storm water outfalls and discharges.

Severe bank erosion caused by storm water discharges can be accurately assessed only after identifying the average erosion condition for a particular stream reach. The USA includes a Reach Level Assessment to characterize overall conditions within each reach of the stream. Guidance is included in the USA assessment of Severe Bank Erosion to help identify locations with more severe erosion. The *Stream Visual Assessment Protocol* (SVAP) also provides useful additional guidance for making the assessment of Severe Bank Erosion.

The USA protocols assume identification of uniform stream reaches. Stream reaches will be identified and mapped prior to actual field investigations. During the field investigation the various stream reaches will be identified using GIS locators. Standard worksheets will be completed for each reach for the entire length of stream in the MS4 Area. Streams (miles) to be assessed are as follows:

- Vermilion Watershed:
 - Saline Branch Drainage Ditch (3.0 miles)
- Upper Kaskaskia Watershed:
 - Copper Slough (2.0 miles)
 - Phinney Branch (1.7 miles)
- Upper Embarras Watershed
 - Unnamed tributaries of the Embarras River (0.6 miles)

Gaining access to streams in the unincorporated MS4 Area will be a significant challenge because all the streams are on private property.

Annual monitoring is planned to occur during June through October. Annual monitoring will note the conditions for the current year and identify changes from previous years. The results will be reported in the Annual Update.

Follow up investigations may be necessary based on observed changes.

Outfalls were identified per the IEPA 4/22/16 Acceptance of Response to Noncompliance Advisory Letter.

SELF-ASSESSMENT OF PERMIT COMPLIANCE

Tables 1 through 6 summarize Champaign County Unincorporated MS4 Storm Water Program activities from April 1, 2025 through March 31, 2026. Table 7 identifies BMPs that were started and still in progress.

Table 1: Public Education and Outreach Activities 4/1/25 – 3/31/26

BMP ID	Activities
A.1.1. – Prepare handouts containing stormwater quality information and present them at permit counter.	Handouts are displayed and available at Planning and Zoning permit counter.
A.2.1. - Inform business groups about MS4, NPDES and BMPs.	Champaign County collaborated with the Champaign County Stormwater Partnership to host the Illinois Green Infrastructure & Erosion Control Conference on October 28 th , 2025.
A.2.2. - Inform developer, contractor, engineering, and architecture groups about MS4, NPDES and BMPs.	Champaign County collaborated with the Champaign County Stormwater Partnership to host the Illinois Green Infrastructure & Erosion Control Conference on October 28 th , 2025.

BMP ID	Activities
B.3.1. – Attend Salt Fork Watershed quarterly meetings.	Staff from the Champaign County Department of Planning & Zoning attended Salt Fork Watershed meetings on 12/4/25 and 3/5/26.
B.4.1. - Comply with applicable state and local public notice requirements.	All public hearings and meetings are noticed as required by state law and local ordinances and policies.
B.6.1. - Intergovernmental Storm Water Management group meetings (coordination meeting for all Champaign County MS4 jurisdictions).	During the program year County staff attended and participated in meetings with other MS4 jurisdictions on 6/10/2025; 8/1/2025; 9/9/2025; 10/6/2025; 10/16/2025; 10/28/2025; 12/9/2025; 3/10/2026.
B.6.2. - Prepare a storm water survey that can be used annually to capture public comments on the MS4 Storm Water Program.	The Champaign County Department of Planning & Zoning distributed the annual stormwater survey in early 2026. The MS4 Storm Water Survey is on the County website at https://docs.google.com/forms/d/e/1FAIpQLSd5hbzMASGpKgPWU3kr8gmQJ-w0ZorXoCFWUddjbMyI8P3Mg/viewform?c=0&w=1
B.6.3. - Hold Annual Public Storm Water Meeting at the Champaign County Board’s Environment and Land Use Committee (ELUC) Meeting to receive public comments regarding the Champaign County Unincorporated MS4 Area Storm Water Program.	There was an Annual Public Storm Water Meeting at the Champaign County Board’s Environment and Land Use Committee (ELUC) in the reporting period year on May 8 th , 2025.
B.6.4. - Identify Environmental Justice areas within the Unincorporated Champaign County MS4 Area and provide appropriate public participation.	Completed the mapping of Environmental Justice Areas for Program Year 1. See Attachment E. Completed the MS4 Storm Water Survey for Program Year 1. See Attachment F.
B.7.1. – Fund aspects of NPDES MS4 implementation in the County’s Land Resource Management Plan implementation budget including public involvement when appropriate.	Funding for MS4 projects was included in the Work Plan for 2025.

Table 3: Illicit Discharge Detection and Elimination Activities 4/1/25 – 3/31/26

D.1.1. - Soil erosion and sediment control regulations.	Soil erosion and sediment control regulations in the Champaign County Storm Water Management and Erosion Control Ordinance were enforced for all Land Disturbance Erosion Control (LDEC) Permits.
D.2.1. - Erosion and sediment control BMPs.	All Land Disturbance Erosion Control (LDEC) Permits were reviewed for use of appropriate BMPs.
D.4.1. - Develop processes and procedures to evaluate proposed construction site runoff mechanisms.	Procedures to evaluate proposed construction site runoff mechanisms are refined in the review of LDEC Permits.
D.4.2. - Training class or workshop for evaluating and inspecting construction site runoff control mechanisms.	Staff from the Champaign County Planning and Zoning Department and the Champaign County Highway Department attended the Illinois Green Infrastructure & Erosion Control Conference on 10/28/2025. Staff reviewed procedures outlined in the EPA Construction General Permit (CGP) Site Inspector Training Course.
D.6.1. - Develop procedures and processes to inspect construction sites for compliance with construction site runoff mechanisms.	Procedures and processes to inspect construction sites are conducted by the Director & trained staff.
D.7.1 – Land disturbance and erosion control (LDEC) permit inventory.	The LDEC permit inventory is created and maintained as new developments, inspections & information arise.
E.3.1. - Develop procedures to ensure that storm water management facilities are maintained to function as designed (post-construction).	The Storm Water Management and Erosion Control Ordinance requires ongoing maintenance of storm water management facilities.

Table 5: Post-Construction Runoff Control Activities 4/1/25 – 3/31/26

BMP ID	Activities
E.3.2. - Provide annual training in green infrastructure and/or low impact design techniques for all MS4 employees who manage or are directly involved in (or who retain others who manage or are directly involved in) the routine maintenance, repair, or replacement of public exterior surfaces. Require that contractors who are retained to manage or carry out the kinds of maintenance and relevant contractor employees also have annual training.	Staff from the Champaign County Planning and Zoning Department and the Champaign County Highway Department attended the Illinois Green Infrastructure & Erosion Control Conference on 10/28/2025.
E.4.1. - Training class or workshop for evaluating and inspecting construction site runoff control mechanisms (post-construction).	Staff from the Champaign County Planning and Zoning Department and the Champaign County Highway Department attended the Illinois Green Infrastructure & Erosion Control Conference on 10/28/2025. Staff reviewed procedures outlined in the EPA Construction General Permit (CGP) Site Inspector Training Course.

A.6.2. – Annually assess Champaign County education and outreach programs for modifications when needed.	The procedures for the annual assessment of the education and outreach program are being developed.
C.2.1. - Prohibit illegal dumping and illicit discharges into drainage system through Nuisance Ordinance.	Preliminary Ordinance language has been drafted regarding illegal dumping and illicit discharges into drainage systems but was not adopted in the program year.
C.3.3. - Create a database of existing private sewage treatment systems and develop management plans to bring non-compliant systems into compliance.	Records of private sewage treatment systems obtained from Public Health Department and are on file. A management plan is not currently implemented but is in development.
C.7.1 – Annual inspections of storm sewer outfalls in dry weather.	Inspections of dry weather outfalls are underway. Not all outfalls were inspected in the program year. An inspection plan is in development.
C.10.1 – Develop and implement procedures to detect, trace and remove illicit discharges.	Relevant maps, report documents, and useful information have been drafted and are kept on file. Procedures on the detection, tracing and removing of illicit discharges are under development.
D.3.1. - Prohibit illegal dumping and illicit discharges into storm drainage system from construction activities.	The Storm Water Management and Erosion Control Ordinance includes a prohibition of illegal dumping and illicit discharges from construction activities. Preliminary Nuisance Ordinance language has been drafted regarding illegal dumping and illicit discharges into drainage systems but has not yet been adopted.
E.1.1. - Implement a public education program about the benefits of green infrastructure and green housekeeping in minimizing the volume of storm water runoff and pollutants from privately-owned developed property.	Development of a Green Infrastructure & Green Housekeeping web page has begun by department staff. A draft is complete and is awaiting publishment on the Champaign County Department of Planning & Zoning website.
E.1.2. - Implement a public education program about the water quality impacts of overuse of fertilizers and pesticides in non-agricultural uses.	Development of a Sustainable Lawn Care web page has begun by department staff. A draft is complete and is awaiting publishment on the Champaign County Department of Planning & Zoning website.
E.2.1 – Require annual inspections of publicly owned storm water management facilities (post-construction)	Inspection procedures and schedules are being developed.
E.7.1 – Develop a program to minimize storm water runoff and pollutants from privately owned developed property within the Champaign County MS4 jurisdiction.	Programs and procedures to minimize runoff and pollutants from privately owned developed property are in development.
F.2.1 – Inspections of County owned facilities. Track and log inspections and corrective actions if necessary.	Inspections were not conducted in the program year. Relevant logs and documents were drafted, and an inspection schedule is in development.
F.6.1 – Catch basin monitoring and cleaning schedule.	Catch basins are maintained and cleaned on an as-needed basis. A schedule to clean catch basins is currently in development.

The activities proposed for next Program Year April 1, 2026 – March 31, 2027, are summarized in Attachment D.

RELIANCE ON OTHER GOVERNMENTAL ENTITY

Champaign County does and will continue to participate in and share resources with the Cooperative MS4 Group, the Champaign County Stormwater Partnership; however, it does not rely on another governmental entity to satisfy its permit obligations.

YEAR 1 CONSTRUCTION PROJECTS

Champaign County construction projects may be authorized under the Facilities Department or the Highway Department.

Projects and details of Highway Construction Projects in the program year are provided in Table 9. There were no land disturbing construction projects by the Facilities Department in the program year.

NOTES

1. All construction projects during this period were roadway projects.

Champaign County submitted a new Notice of Intent (NOI) effective November 1st, 2025. The Illinois Environmental Protection Agency updated the ILR40 General NPDES Permit which introduced additional requirements. Champaign County must comply with the new permit provisions within 12 months from the date a letter of Notice of Coverage is received.

Champaign County introduced ten new Best Management Practices to meet the new standards outlined in the updated ILR40.

Table 10: New Best Management Practices introduced from April 1, 2025 through March 31, 2026

	BMP No.	Brief Description of New Best Management Practice (BMP)
1	A.6.2	Annually assess the Champaign County education and outreach program for changes in behavior and public awareness.
2	B.3.1	Attend Salt Fork Watershed quarterly meetings.
3	C.1.2	Map priority areas in Champaign County MS4 jurisdiction likely to have illicit discharges.
4	C.7.1	Inspect storm sewer outfalls for non-storm water discharges and illegal dumping.
5	C.10.1	Develop and implement procedures to detect, trace and remove illicit discharge.

Survey Intent

The Champaign County MS4 Area Storm Water Survey is administered to identify citizen concerns related to storm water within the Champaign County Urbanized Area. The Champaign County Urbanized Area includes Champaign, Urbana, Savoy and Bondville.

The annual survey is conducted to satisfy the Champaign County MS4 Storm Water National Pollutant Discharge Elimination System (NPDES) Annual Facility Report identified best management practice requirement regarding Public Involvement and Participation of Environmental Justice (EJ) Areas within the Unincorporated MS4 Area.

MS4 Environmental Justice Areas with the unincorporated portion of the Champaign County Urbanized Area are updated every year. The Storm Water Survey is a sampling of those MS4 Environmental Justice Areas within the Unincorporated Area.

The MS4 Survey is also available to anyone on the Champaign County website. Results from the online Survey are combined with the MS4 Survey of Environmental Justice Areas.

The results of the MS4 Survey are reported in the Annual MS4 Facility Inspection Report for the reporting period in which the MS4 Survey was conducted.

Study Area

Attachment E are maps of the Champaign County Unincorporated Area MS4 Environmental Justice Areas as of January 9th 2026.

Study Area Population

In 2026, Champaign County's MS4 qualifying EJ Jurisdiction population is roughly 7,200 people.

Sample Size and Survey Distribution

In February of 2026, a total of 370 surveys were mailed to a randomly selected sample of recipients residing within qualifying Environmental Justice areas of the Champaign County MS4 Area. A Spanish copy of the survey is available upon request. The survey is also available on the Champaign County Department of Planning and Zoning Storm Water Program webpage.

Response Rate

A total of 44 mailed survey responses and 2 online survey responses were received for a response rate of 13.8%. A 10%-15% response rate for a survey distributed by mail is considered an average.

Follow-up Contact regarding County Board Review

A total of 11 respondents indicated they wanted to be notified about the Environment and Land Use Committee review of survey results; 2 of these respondents did not list contact information.

Survey Results

The Survey questions are numbered below as they appear on the Survey. A blank copy of the survey is attached immediately following the results. The survey results are below:

17	Cove Creek Pl & Coppertree Rd	Yes	Stormwater in the street that seems to interfere with traffic during large rain events. Enough to attract waterfowl & mosquitos.
18	Mattis Ave & St. Mary's Rd	No	Stormwater in the street that seems to interfere with traffic during large events.
19	Amherst Dr between Glenshire Dr & Danbury Dr	Yes	Storm water in the street that seems to interfere with traffic during any rain. Storm water in the street that seems to interfere with traffic during large rain events. Storm water so deep that it may be a safety concern during large rain events. The pipes from the storm drains are heavily clogged with debris. During heavy rains the street completely floods with 1-2 feet of water, overflowing the curbs into the parkways and up driveways, but not to houses. Cars have a very hard time going down the street and create large waves and flying water as they go through the flood. The drains are NOT clogged. It takes about an hour for the water to recede down the drains, leaving behind large amounts of dirt in the street. I have pictures and video of the events when they occur. I suspect a good hydro flush would help!
20	Georgetown Circle & Harrington Drive	Yes	Stormwater that collects on the corner and in the winter freezes, so makes a large icy area that is hard to treat with salting trucks; water gets several inches deep.

4. Please feel free to add any other comments you may have regarding storm water in the Champaign County MS4 Area or Urbanized Area:

Washington St by the Dart Factory has flooding issues
The circle in front of 121 Scottswood Dr Urbana floods, Random cars that don't even belong to any of the houses are parked in the circle. They block street cleaners. Please make it no parking so the circle can be cleaned. These cars block snow removal as well.
Don't think storm drain is adequate* (<i>*Undisclosed location</i>).
My lots flood with standing water - then storm drain floods Hagan Blvd and the water backs up from Kenyon drain to my backyard. The Hagan Blvd storm drain back up floods my driveway and alley near as well.
Area on 4th between University and Bradley floods heavily during heavy rain.
I believe the water retention pond in my backyard is healthy and supports a variety of wildlife.
<p>Dear Steve, and to All Whom This May Concern,</p> <p>Thank You for sending out the Storm Water Survey this past month, January 26, 2026. We did not get to your survey but would like to pass along some thoughts and how we feel about stormwater runoff in our area.</p> <p>Mostly having worked in Nature Education, Gardening including for Ecological Restoration and Permaculture, and Wetland Ecology in our family, along with supporting education in watershed groups, when we see a good deal of water temporarily built up in our ditches, along our road, and in retention areas, we would love to see a great deal more of this managed into Raingardens, using native local genotype plants, like ephemerally wet prairie plantings, to support from there other interdependent species. Too often, when stormwater runoff detention basins are put in they could actually operate more as ephemeral wetlands to raingardens. Only a few years ago we had many more frogs and toads as the most obvious members of such, coming to our home by the closest retention basin, until redone. There are great studies now on how healthy wetlands support predators of mosquito larvae to adults, like of our dragonflies and damselflies, who are shown to actually greatly reduce mosquito populations that may occur from gutters and other less manageable and less natural standing water sources.</p> <p>The Prairie habitats of this general regions are understood to have long been 40 - 60% ephemeral wetlands before Euro-American acquisition. Some of these would be wooded as well. So much of this has been shunted off for fear of mosquitoes, while we were contaminating wetlands, so species dependent on healthier organisms could not survive.</p> <p>As climate changes bear less frequent while stronger storm flows - anywhere we can temporarily hold back runoff reduces erosion of soils into our streams, reducing stream entrenchment away from flood plains, and allows for water recharge into soils and plants, including trees, more commonly suffering increasing drought, just as this short term retention of storm waters may recharge into aquifers.</p> <p>We appreciate any education you can provide and support to others, locally, regarding such restorative solutions, especially as we are in mass extinction, and can afford all the restoration we can manage, also by growing cultural awareness and relatedness, and celebration of regional ecology.</p> <p>We are seeing increasing droughts, while living in the 'Midwest breadbasket' means losing all but .1 to .01% of critical habitat, so heading toward losing corresponding numbers of species; making this area, according to Restoration Ecology guru Bill Jordan, 'Where ecological restoration began, as we had so little left to preserve.'</p> <p>We are grateful to have been able to restore native plants from our raingardens into wetlands in our local parks, working closely and enjoyably with local Park staff, and their students, including our daughter - from our little home - along with volunteering to survey amphibians for such support, with those who hold a passion and delight for healing the wondrous life of our region.</p>

Champaign County MS4 Area Storm Water Survey

The purpose of this survey is to identify citizen concerns related to storm water within the Champaign County MS4 Area. The map provided on page 2 identifies the Champaign County MS4 Area and the larger Urbanized Area.

This survey is conducted as part of the Champaign County Municipal Separate Storm Sewer System (MS4) Storm Water Program, as required by the National Pollutant Discharge Elimination System (NPDES) Storm Water Program administered by the Illinois Environmental Protection Agency. Any resident of Champaign County may participate in this survey. However, we ask that you submit only one completed survey.

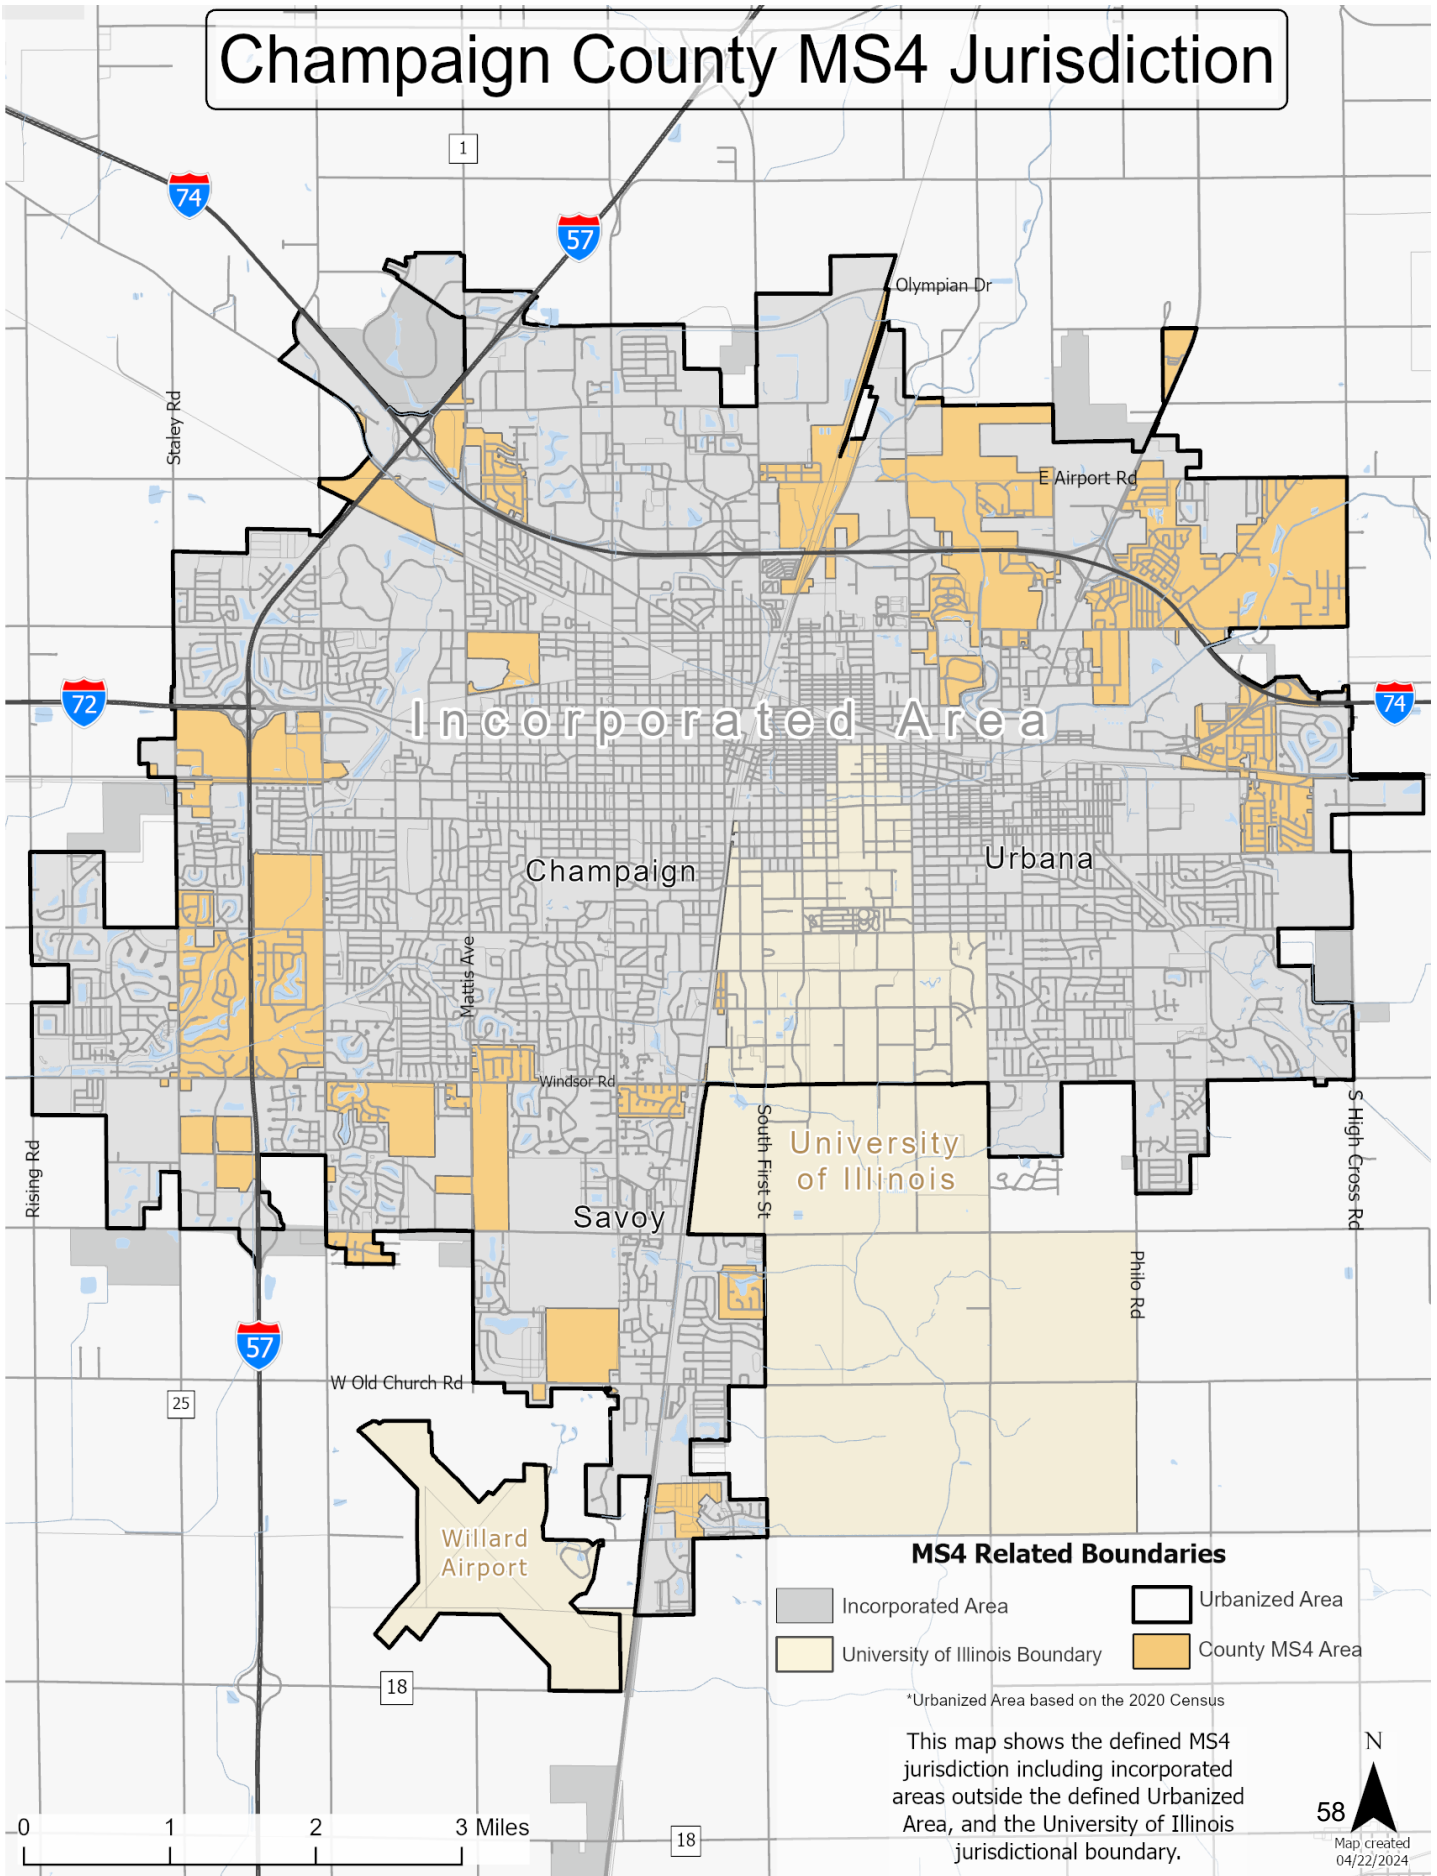

Please complete and return the survey as soon as possible. For your convenience, we include a postage-paid return envelope.

If you have a question about the Champaign County MS4 Storm Water Program or this survey, please contact the Department of Planning and Zoning at 217-384-3708 or zoningdept@champaigncountyil.gov

RE: Budget Amendment 2026-03-302 for April 14, 2026 COW and April 23, 2026 County Board Meetings

DATE: March 27, 2026

This proposed budget amendment is at no cost to the County's general fund.

To pay for upcoming costs associated with e-citation implementation, namely, integration and equipment replacement funds, it is necessary to add appropriations from the e-citation fund balance to pay for the said costs. As you recall, the e-citation fund is a special fund from which monies can be spent only as they relate to the cost of e-citation.

The budget amendment is to pay \$48,000 to JANO for integration and annual maintenance for Brazos, the Tyler product that we are using for the operation of the e-citation project (an invoice for this expense is included with the budget amendment), and \$10,000 to be paid to METCAD as needed for equipment replacement (as required by our contract with METCAD for this project).

Thank you for your time and attention in this regard.

RE: Elected Official Salary Statistical Information and Recommendations

In preparation for setting the salaries of the County Clerk, County Treasurer, County Executive and County Board Chair, I have compiled statistical information that board members may find useful in their deliberations.

As I did in 2024, for this study I used the 16 counties that have an elected county auditor for my sample. These 16 counties are among the most populous in the state of Illinois. These counties are generally similar to Champaign County.

Rank	County	Population
1	DuPage	930024
2	Will	701223
3	Kane	517255
4	McHenry	312591
5	Winnebago	283292
6	Madison	264238
7	St. Clair	253694
8	Champaign	208741
9	Sangamon	194947
10	McLean	171556
11	Rock Island	142757
12	Tazewell	130290
13	LaSalle	108714
14	Kankakee	106635
15	Macon	101849
16	Vermilion	72386

Champaign County ranks 8th among these 16 counties in terms of population, slightly above the median population of 201844.

The salaries of County Clerk’s among these 16 counties range from a high of \$154,000 in McHenry County to a low of \$74,954 in LaSalle County. The Champaign County Clerk’s salary of \$116,234 ranks 4th among the sample. The salary is 108.8% against the average County Clerk salary, and 110.4% against the median County Clerk salary.

Rank	County	County Clerk Salary	
1	McHenry	\$	154,000.00
2	DuPage	\$	151,363.00
3	Sangamon	\$	125,093.00
4	Champaign	\$	116,234.00
5	McLean	\$	111,735.00
6	Madison	\$	110,115.00
7	Kane	\$	109,242.00
8	St. Clair	\$	107,605.00
9	Rock Island	\$	103,000.00
10	Winnebago	\$	100,392.00
11	Tazewell	\$	98,124.00
12	Will	\$	93,116.00
13	Macon	\$	92,655.00
14	Vermilion	\$	86,963.00
15	LaSalle	\$	75,437.00
16	Kankakee	\$	74,954.00
Average Salary		\$	106,876.75
Median Salary		\$	105,302.50

It should be noted that the following counties have a combined Clerk/Recorder office: Champaign, Madison, McHenry, McLean, Sangamon (December 1, 2026), Tazewell, and Winnebago.

The FY 2026 Champaign County Budget authorizes 19.5 full time employees in the office of the Clerk and Recorder.

The salaries of County Treasurer’s among these 16 counties range from a high of \$154,000 in McHenry County to a low of \$74,594 in Kankakee County. The Champaign County Treasurer’s salary of \$93,666 ranks 4th among the sample. The salary is 109.1% against the average County Treasurer salary, and 103.8% against the median County Treasurer salary.

Rank	County	County Treasurer Salary	
1	McHenry	\$	154,000.00
2	DuPage	\$	151,363.00
3	Sangamon	\$	125,093.00
4	Champaign	\$	116,234.00
5	McLean	\$	111,735.00
6	Madison	\$	110,111.00
7	Kane	\$	109,242.00
8	St. Clair	\$	107,605.00
9	Rock Island	\$	100,300.00
10	Winnebago	\$	97,223.00
11	Tazewell	\$	96,309.00
12	Will	\$	93,116.00
13	Macon	\$	92,655.00
14	Vermilion	\$	86,963.00
15	LaSalle	\$	75,437.00
16	Kankakee	\$	74,594.00
Average Salary		\$	106,542.50
Median Salary		\$	105,302.50

The FY 2026 Champaign County Budget authorizes 7 full time employees in the office of the County Treasurer.

Only two counties in Illinois, Champaign and Will, have an elected County Executive. However, among the 16 counties studied, 9 counties elect a full-time County Board Chair, performing many of the duties of the County Executive. I have included these counties in the following table. The salaries of County Executive/Full Time County Board Chair among these 11 counties range from a high of \$131,559 in DuPage County to a low of \$67,154 in Kankakee County. The Champaign County Executive’s salary of \$72,828 ranks 10th among the 11 county sample. The salary is 74.1% of the average County Executive/Chair salary, and 69.8% of the median County Executive/Chair salary.

Rank	County	Executive/Chair Salary	
1	DuPage	\$	131,559.00
2	Madison	\$	123,000.00
3	St. Clair	\$	107,605.00
4	Winnebago	\$	107,036.00
5	Kane	\$	105,328.00
6	McHenry	\$	104,300.00
7	Will	\$	99,616.00
8	Vermilion	\$	86,963.00
9	LaSalle	\$	75,437.00
10	Champaign	\$	72,828.00
11	Kankakee	\$	67,154.00
Average Salary		\$	98,256.91
Median Salary		\$	104,300.00

The FY 2026 Champaign County Budget authorizes 506 full time employees within Champaign County government (Regional Planning Commission programs excluded). The FY 2026 Champaign County Budget authorizes 15 full time employees within the County Executive’s Office.

Among the 16 counties studied, 7 counties elect a part-time County Board Chair. These elected officials do not perform supervisory duties of employees. The salaries of part-time County Board Chair among these 7 counties range from a high of \$38,408 in Tazewell County to a low of \$7,500 in Macon County. The Champaign County Board Chair’s salary of \$12,000 ranks 6th among the 7 county sample. The salary is 49.5% of the average County Board Chair salary, and 52.1% of the median County Board Chair salary.

Rank	County		Board Chair Salary
1	Tazewell	\$	38,408.00
2	Sangamon	\$	36,580.00
3	Rock Island	\$	32,556.00
4	Will	\$	23,000.00
5	McLean	\$	19,522.00
6	Champaign	\$	12,000.00
7	Macon	\$	7,500.00
			<hr/>
	Average Salary	\$	24,223.71
	Median Salary	\$	23,000.00

Among the 15 counties studied (Winnebago did not respond to this question), 12 counties set an annual salary for County Board Members, 2 counties set an annual salary (\$2400 Tazewell, \$2900 Rock Island) plus a per diem (\$75 Tazewell, \$100 Rock Island) for committee meetings, and 3 counties pay only based upon meeting attendance. For the purpose of creating a table that would match Champaign County’s typical three meeting calendar (Committee of the Whole, Standing Committee, and Full Board Meetings), I have used those counties that pay per meeting’s daily rate to create an annual salary. The salaries of County Board Members among these 15 counties range from a high of \$52,102 in DuPage County to a low of \$2,160 in Champaign County (\$60 per meeting, 3 meetings monthly, 12 months annually). The Champaign County Board Member’s salary of \$2,160 ranks 15th among the 15 county sample. The salary is 16.3% of the average County Board Member salary, and 30.8% of the median County Board Member salary.

Rank	County	County Board Salary	
1	DuPage	\$	52,102.00
2	Kane	\$	25,000.00
3	Will	\$	23,000.00
4	McHenry	\$	21,000.00
5	St. Clair	\$	19,675.00
6	Madison	\$	16,500.00
7	Sangamon	\$	10,724.00
8	LaSalle	\$	7,000.00
9	Rock Island	\$	5,300.00
10	McLean	\$	4,900.00
11	Tazewell	\$	4,200.00
12	Kankakee	\$	3,060.00
13	Vermilion	\$	3,000.00
14	Macon	\$	2,500.00
15	Champaign	\$	2,160.00
16	Winnebago	\$	No data received
	Average Salary	\$	13,441.40
	Median Salary	\$	7,000.00

The position of County Board Member is not considered full time in any of the sampled counties. Additionally, in Champaign County, traditionally there are no committee meetings in the month of July, which reduces the board member compensation by \$120 annually.

Upon analysis of the above information, you will find that Champaign County is average in population among Counties sampled. The salaries of the County Clerk and County Treasurer are above the average salary of those offices. The salary of both offices is also above the average median salary of those offices.

The office of County Executive is significantly below the average and median of full-time County Executive or County Board Chair salaries.

The salaries of these three elected officials are funded by Champaign County’s General Fund. The Champaign County 2026-2031 Financial Forecast that was presented to the County Board in April shows that the General Fund is projected to have a deficit of \$4,913,983 in FY2027; a deficit of \$5,726,922 in FY2028; a deficit of \$6,578,975 in FY 2029; and a deficit of \$7,316,808 in FY2028.

The salary of the County Clerk and County Treasurer were raised from \$97,569 to \$110,000 per year, with annual raises, by board action in 2022. The salary of the County Executive was reduced from \$122,006 to \$70,000, with annual raises, at the same time.

Considering the above statistics, as well as the Financial Forecast for the next several years, I suggest the following as a starting discussion point for elected official salaries:

	Starting 12/1/2026	Starting 12/1/2027	Starting 12/1/2028	Starting 12/1/2029
County Clerk	\$ 116,234.00	\$ 116,234.00	\$ 116,234.00	\$ 116,234.00
County Treasurer	\$ 116,234.00	\$ 116,234.00	\$ 116,234.00	\$ 116,234.00
County Executive	\$ 95,548.69	\$ 95,548.69	\$ 95,548.69	\$ 95,548.69
County Board Chair	\$ 15,000.00	\$ 15,000.00	To be set in 2028	To be set in 2028

This proposal freezes the salary of the County Clerk and County Treasurer. Both offices are significantly compensated above both the average and median salaries of those positions in comparable counties. Additionally, these positions are compensated significantly higher than the positions of Circuit Clerk (comparable to County Clerk, annual salary \$102,121), and County Auditor (previously comparable to County Treasurer, annual salary \$95,548). No officer sees a reduction in salary starting December 1, 2026, even though statistically it could be warranted for the County Clerk and County Treasurer.

The County Executive is compensated at a rate significantly below that of comparable County Executives and full time County Board Chairs. Additionally, the position is compensated significantly below that of other countywide elected officials (and appointed department heads) in Champaign County. To start this discussion, while our goal should be to move Champaign County closer to the average and median salary levels, taking budgetary constraints in mind, I am recommending that the County Executive salary be set

at that of the current salary for County Auditor and County Coroner (\$95,548), and that the salary be frozen for the term of office.

The salary of the County Board Chair has been set at \$12,000 for more than a decade. Again, this position is below the average and median salaries of comparable County Board Chairs within the sample. I am recommending setting the salary of the County Board Chair at \$15,000 per year for the two year term. Again, this moves Champaign County closer to the average and median salary of comparable counties, but takes in to account for budgetary constraints.

Finally, the salaries of County Board members have not been addressed in nearly 15 years. In 2011, Board Member per diem was adjusted from \$45 to \$60. The \$45 rate was set in 1992. Salaries of board members must also be addressed on the same timeline of countywide elected officials. Any adjustment to County Board member salaries will only affect members elected in November 2026, taking office in December 2026. By law, board members who were elected in November 2024 cannot have their salary adjusted mid-term. Their salaries may be adjusted now, but they cannot be paid at the new rate until December 2028.

Of note, other local government entities compensated higher than the Champaign County Board include: members of the Urbana City Council receive compensation of \$7,000 annually, Champaign City Council \$5,000 annually, members of the Urbana-Champaign Sanitary District \$6,000 annually, Champaign Township Board \$200 per meeting/\$2400 annually, St. Joseph Village Board \$2,400 annually plus \$100 per special meeting, Mahomet Village Board \$3,000 annually plus \$50 per committee meeting, and Rantoul Village Board \$6,000 annually.

The low compensation of County Board members is an obstacle to many persons interested in serving. The cost of missed work and child care are often mentioned in discussions about meeting availability of board members. I do not believe that Champaign County is in a position to achieve the average or median salary for County Board members at this time. However, we must address this issue. To start discussion, I would recommend a hybrid approach that includes an annual salary of \$3600 plus a meeting per diem of \$50 per day (no additional compensation for days with multiple meetings).

Again, I'd like to stress that these are suggestions for starting the discussion. Individual board members can, and should, make suggestions on this matter. The Committee of the Whole does not need to decide this matter tonight, but the full County Board must make a decision at the May full board meeting to comply with state statute.

RESOLUTION NO. 2026-116

**RESOLUTION ESTABLISHING SALARIES OF COUNTYWIDE ELECTED OFFICIALS
(COUNTY EXECUTIVE, COUNTY CLERK, TREASURER)**

WHEREAS, the County Board is statutorily required to determine the amount of compensation for the offices of County Executive (55 ILCS 5/2-5012), County Clerk (55 ILCS 5/4-6001), and Treasurer (55 ILCS 5/4-6001), and to do so without regard to awards or stipends from State funds for those offices; and

WHEREAS, pursuant to 50 ILCS 145/2, compensation for the offices of County Executive, County Clerk, and Treasurer must be fixed at least 180 days before the term of office begins on December 1, 2026 and cannot constitutionally be increased or decreased thereafter until after the term beginning 2026 ends in the year 2030 (IL. Const. 1970 Art. VII § 9 (b)); and

WHEREAS, pursuant to 50 ILCS 145/2(b) and the below-indicated statutes, the following elected officers are expected to receive the following stipends in addition to the compensation to be paid by the county:

County Clerk - \$6,500 (55 ILCS 5/4-6001(d))
Treasurer - \$6,500 (55 ILCS 5/3-10007); and

WHEREAS, the County Board must balance its duty to fairly and adequately compensate all elected officials - including the County Executive, County Clerk and Treasurer - with its duty to protect the public's tax dollars and provide County services effectively and efficiently; and

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED by the County Board of the County of Champaign, Illinois that the salaries for the Circuit Clerk, Auditor, Coroner, and County Board Chair shall be fixed as follows:

Position	For the 12 months beginning 12/1/2026	For the 12 months beginning 12/1/2027	For the 12 months beginning 12/1/2028	For the 12 months beginning 12/1/2029
County Executive				
County Clerk				
Treasurer				

BE IT FURTHER RESOLVED that the County Executive, County Clerk and Treasurer shall be entitled to receive health insurance benefits under the County policy with premiums to be set at the same contribution amount as that charged to employees not covered under collective bargaining agreements and shall be entitled to participate in IMRF, and shall be entitled to receive any ancillary benefits under County policy with premiums if any to be set at the same contribution amount as that charged to employees not covered under collective bargaining agreements.

BE IT FURTHER RESOLVED that this Resolution amends Resolution No. 2022-117 and supersedes said resolution.

Bid Results**

Dear Michelle,

Bids were taken May 12, 2026 on the above-referenced work.

The results were:

Bidder	JDC	Pope Jail	Total
Tom Davis Electric	\$333,315	\$757,643	\$1,090,958
Solar Energy Solutions	\$265,400	\$986,600	\$1,252,000

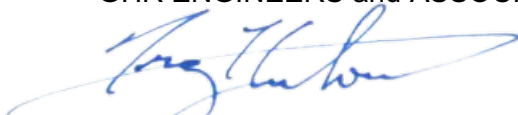

All bidders acknowledged receipt of addenda, and numbers are responsive and competitive. These numbers include base bid costs for both the Juvenile Detention Center and the Pope Jail.

I spoke with Austin Stephenson of Tom Davis Electric. He has reviewed his bid and found it to be complete. He is prepared to sign a contract for the work related to the base bids for both the Juvenile Detention Center and the Pope Jail.

GHR recommends acceptance of the Tom Davis Electric bid for the total project.

Very truly yours,

GHR ENGINEERS and ASSOCIATES, Inc.

Column Explanation

Annual Energy Savings: An estimate of dollar savings as a result of the installed PV system. Value is a best estimate based on the building's Ameren rate structure. Value should be taken with a grain of salt and real-life savings may differ.

PV System Generation: Approximate annual energy production (in kWh) based on system simulation using industry standard PV system simulation software.

SREC Application Fee: All non-residential solar clients participating in the Illinois Shines Solar Renewable Energy Certificate (SREC) Program are invoiced \$20/kWac at the time of their SREC Application Submission. This is a fee that is charged in order for the SREC application to be submitted. It is required for the project to be eligible for the SREC incentive. Conservative value of \$10,000 was used in cash flow calculations.

SREC Value: The total SREC value is equal to the SREC Rate multiplied by the number of SRECs generated during the contract period (15 years). One SREC is equal to 1,000 kWh.

SREC Payments: Systems larger than 25 kW AC will receive 15% of the REC purchase price within approximately 120 days after the PV system has produced its first 1000 kwh (1 REC), and the 85% balance will be paid quarterly over the following 6 years.

SREC Collateral: The 5% collateral/bond that was paid in Year 0 is returned as a payment to the Client in Year 15 (since that is when the SREC Contract term is complete).

Smart Inverter Rebate: Illinois customers are able to receive \$250/kW for PV inverters complying with IEEE 1547-2018, IEEE 1547.1 and UL 1741 SB. This is relatively standard for high quality inverters.

Investment Tax Credit (ITC) Direct Pay: Entities that qualify for direct pay are eligible to receive a 30% direct payment, assuming they meet the established prevailing wage and apprenticeship requirements in order to qualify for the full 30% "increased rate", rather than a 6% "base rate". Direct pay is only available for entities, including: an entity exempt from the tax, any State government (or political subdivision thereof), the Tennessee Valley Authority, an Indian tribal government, an Alaska Native Corporation, any corporation operating on a cooperative basis which is engaged in furnishing electric energy to persons in rural areas.

RE: Court Security Collective Bargaining Agreement

Please find attached a copy of the new Collective Bargaining Agreement (CBA) with the Court Security Division of the Sheriff's Office for your approval. This CBA was negotiated with the Fraternal Order of Police union through consultation with the State's Attorney's Office, outside legal counsel, and the County Board's Labor Committee.

Highlights of this CBA include:

- A 2% market adjustment to salaries in 2026;
- A 3% salary increase in 2027;
- A 3% salary increase in 2028;
- An increase in extra compensation from \$2.00/hr to \$2.50/hr for officers engaged in formalized training of new court security officers while involved in those activities;
- An increase in extra compensation from \$2.00/hr to \$2.50/hr when an officer is serving in an upgrade supervisor role.

I approve of this Collective Bargaining Agreement and appreciate the work union representatives and our administrative team put into the negotiations.

As always, thank you for your continue support of me and my office.

RESOLUTION NO. 2026-112

RESOLUTION APPROVING AGREEMENT BETWEEN THE CHAMPAIGN COUNTY BOARD, THE SHERIFF OF CHAMPAIGN COUNTY, AND THE ILLINOIS FRATERNAL ORDER OF POLICE COURT SECURITY OFFICERS
JANUARY 1, 2026 – DECEMBER 31, 2028

WHEREAS, The Champaign County Board and the Sheriff have negotiated with the Illinois Fraternal Order of Police (FOP), the sole and exclusive bargaining agent for the Fraternal Order of Police Court Security Officers; and

WHEREAS, The parties have completed negotiations as to the terms and conditions of employment for the Fraternal Order of Police Court Security Officers employees who are members of the bargaining unit for the period from January 1, 2026 through December 31, 2028;

NOW, THEREFORE, BE IT RESOLVED, By the Champaign County Board, Champaign County, Illinois, that the Collective Bargaining Agreement for the Fraternal Order of Police Court Security Officers Between the Champaign County Board, the Sheriff of Champaign County, and the Illinois Fraternal Order of Police is hereby approved; and

BE IT FURTHER RESOLVED, by the Champaign County Board, that the Chair of the County Board, is hereby authorized to execute the Collective Bargaining Agreement for the Fraternal Order of Police Court Security Officers, on behalf of the Champaign County Board.

RESOLUTION NO. 2026-113

A RESOLUTION APPROVING A SUBAWARD AGREEMENT BETWEEN THE COUNTY OF CHAMPAIGN AND SANGAMON VALLEY FIRE PROTECTION DISTRICT

WHEREAS, the County has received opioid settlement funds and is committed to using those funds to support evidence-based, high-impact strategies to address the opioid crisis in Champaign County; and

WHEREAS, the County recognizes the importance of supporting first responder agencies serving opioid-impacted communities, particularly in rural areas where emergency medical response times are extended; and

WHEREAS, the County allocated opioid settlement funds to Sangamon Valley Fire Protection District in 2025 to support the purchase of a cardiac monitor device—a necessary tool for assessing and continuously tracking a patient’s heart activity, including rhythm, rate, and electrical function, during medical emergencies to guide treatment; and

WHEREAS, the Sangamon Valley Fire Protection District worked with their vendor to negotiate a lower rate for the cardiac monitor and the addition of two AED units for their trucks for the allocation of opioid settlement funds they were originally awarded in 2025; and

WHEREAS, Sangamon Valley Fire Protection District is requested to use their remaining awarded funds, not requesting any additional for this request.

NOW, THEREFORE, BE IT RESOLVED by the County Board of Champaign County, Illinois, that the County Executive is hereby authorized to execute an amendment to the original opioid settlement funding allocation to Sangamon Valley Fire Protection District to include the purchase of two AEDs with the cardiac monitor.

PRESENTED, ADOPTED, APPROVED, AND RECORDED this 21st of May A.D., 2026.

Sangamon Valley Fire Protection District

Purpose Summary

The Sangamon Valley Fire Protection District is requesting \$4,201.76 in funding to purchase Automated External Defibrillators (AEDs). This essential equipment will allow us to provide faster, more accurate, and lifesaving intervention for residents in Fisher and the surrounding rural areas of Champaign County. Our community, like many others, continues to feel the impact of the opioid crisis; because severe overdoses can lead to sudden cardiac arrest, having these AEDs on our rescue vehicles ensures that patients receive immediate, automated cardiac support during those critical minutes before reaching the hospital. This project will strengthen our ability to protect the health and safety of our neighbors while supporting the Champaign County Opioid Settlement Task Force's mission to serve opioid-impacted individuals and communities.

Background

The Sangamon Valley Fire Protection District serves the Village of Fisher and surrounding rural

areas of northern Champaign County, providing fire suppression, emergency medical services, and community risk reduction to approximately 2,500 residents. Established to protect life and property, the District has a strong tradition of neighbors serving neighbors with dedication and compassion. Our mission is to deliver rapid, skilled emergency response, and in recent years, that mission has increasingly included responding to opioid overdoses. The opioid crisis continues to affect families in our community, creating an urgent need for advanced tools that allow our EMS providers to deliver precise, lifesaving care. The District is governed by a three-member board of trustees and operates as an all-volunteer department. We respond to about 350 calls annually, and our members include several licensed paramedics who are trained and experienced in advanced life support.

Funding Request

The District is requesting \$4,201.76 to purchase **Automated External Defibrillators (AEDs)** for use on our rescue units. These devices will have a direct and profound impact on patients experiencing the most severe consequences of opioid overdoses. Because high-dose opioid toxicity can lead to sudden respiratory and cardiac arrest, having advanced AEDs allows our providers to immediately analyze heart rhythms and deliver lifesaving shocks the moment they are needed. These units act as a critical safeguard, ensuring that if an overdose progresses to cardiac arrest, our team can initiate immediate resuscitation—giving patients the best possible chance for survival and meaningful recovery.

While the most urgent benefit is for those suffering from opioid-related crises, these AEDs will also strengthen our response to other emergencies such as primary heart attacks and trauma-induced cardiac failure. Our goal is to implement this project within the next **two months**. Key personnel include EMT-Paramedics Travis Wilson and Blake Kuhns, who bring significant experience in prehospital care and will ensure this equipment is deployed effectively. Sustainability will be achieved through our operating budget, which will cover battery replacements, electrode pads, and routine maintenance. We also work in coordination with neighboring fire departments, hospitals, and law enforcement, ensuring that these life-saving tools benefit the entire regional emergency response network.

Evaluation

We will evaluate the success of this project by tracking the **frequency and deployment** of the AEDs during emergency calls, with a specific focus on opioid-related incidents and cardiac arrests. Effectiveness will be measured by the **timely availability** of this lifesaving equipment on-scene and the successful completion of cardiac rhythm analysis when applied to patients in distress.

Additionally, we will monitor **patient outcomes**—specifically survival and stabilization—from the point of initial contact through the transition to hospital care. This broad data collection will highlight the overall impact of the investment on community safety and ensure that the Sangamon Valley Fire Protection District continues to meet the goals of the Champaign County Opioid Settlement Task Force.

Sangamon Valley Fire Protection District

Project Budget

The Sangamon Valley Fire Protection District is requesting the full project cost of \$4,201.76 through this grant. It should be noted that we previously requested a grant for \$29,727.86 for a cardiac monitor. Our supplier was able to reduce the cost of the cardiac monitor by \$4,201.76 to allow us to get two additional AED's to place on our rescue unit. There would be no additional money that is coming from the Task Force as we have already been granted this money.

Budget Breakdown

- Cardiac monitor and accessories: **\$4,201.76**
- Training: **\$0** (completed internally at no additional cost)
- Maintenance/Service: **\$0** (covered under an agreement with Carle Health; replacement parts only if required)

Total Requested: \$4,201.76

RESOLUTION NO. 2026-114

A RESOLUTION APPROVING AN INTERGOVERNMENTAL SUBAWARD AGREEMENT BETWEEN THE COUNTY OF CHAMPAIGN AND THE CHAMPAIGN COUNTY SHERIFF'S OFFICE

WHEREAS, the COUNTY has received funding to serve opioid-impacted persons and communities as a result of opioid settlements; and

WHEREAS, the COUNTY wishes to utilize opioid settlement funding to address the opioid crisis and support evidence-based strategies for prevention, treatment, and harm reduction; and

WHEREAS, the County recognizes the importance of supporting first responder agencies serving opioid-impacted communities, particularly in rural areas where emergency medical response times are extended; and

WHEREAS, Sheriff's Office deputies cover the entirety of Champaign County and are often the first responders on scene for various types of medical emergencies, especially in the more rural areas; and

WHEREAS, Champaign County Sheriff's Office has AED units in most of their squad cars, and the eight they are currently requesting would fill the remaining squad vehicles; and

WHEREAS, access to equipment such as AEDs by first responders can improve survival outcomes for individuals experiencing cardiac arrest or other medical emergencies associated with opioid overdose and polysubstance use.

NOW, THEREFORE, BE IT RESOLVED that the County Board of Champaign County authorizes the County Executive to enter into the AGREEMENT Between the County of Champaign and the Champaign County Sheriff's Office to provide a one-time payment of \$17,489.40 in opioid settlement funding for the purchase of first responder equipment to support opioid-impacted individuals. Champaign County Sheriff's Office shall adhere to the List of Opioid Remediation Uses and the State of Illinois Approved Uses of Opioid Settlement Funding provided in the AGREEMENT as Attachments C and D.
