Subject: ZBA: In favor of carbon sequestration moratorium

CAUTION: External email, be careful when opening.

To the Zoning Board of Appeals,

I support extending the moratorium on geologic carbon sequestration. Injection sequestration is a largely experimental technology and we've already seen from the ADM leaks that existing modeling is not adequately safe.

The risks are serious and long-term (heavy metal contamination of drinking water, possible earthquakes, etc), so let's take our time reviewing the science and not ring that bell too soon.
