The following is a full and complete list of the assessed value of real estate as made by the Assessor or Supervisor of Assessments for general assessment year 2021.

Your property is to be assessed at the above listed median level of assessment for the assessment district. You may check the accuracy of your assessment by dividing your assessment by the median level of assessment. The resulting value should equal the estimated fair cash value of your property. Assessments are required by law to be at one-third of market value for non-farm property (assessment x 3). If the resulting value is greater than the estimated fair cash value of your property, you may be over-assessed. If the resulting value is less than the fair cash value of your property, you may be under-assessed.

Your township assessor is listed above. Statue advises you to contact your assessor first to review your assessment. **However to protect your appeal rights you must file with the Board of Review.** Appeal forms and rules can be obtained at the Supervisor of Assessments office, Brookens Administrative Center, 1776 E. Washington St., Urbana, Illinois, 61802, by calling (217) 384-3760 or at <http://www.co.champaign.il.us/BoardofReview/forms>. Appeals must be received no later than 4:30PM, **09/10/2021.**

An assessment is not a tax bill. The assessment allocates the property tax burden based on the value of your real property and the aggregate value of all property in the tax district. In general higher valued properties pay more taxes than lower valued properties. Non-farm assessments should be 1/3 of the market value of the property.

This is the basic tax bill calculation formula: Final Equalized Assessed Value – Exemptions = Taxable Assessment. The Taxable Assessment X Current Tax Rate = Total Tax Bill.

Exemptions – exemptions reduce the taxable value of homestead property. Exemptions are available for owner occupied, seniors, disabled and disabled veterans, returning veterans, and certain homestead improvements.
